Intellinetics, Inc. Partners with K-12 Solutions Provider

Software Unlimited, Inc. Partnership Results in Sales Before Official Launch

COLUMBUS, Ohio, Aug. 14, 2018 (GLOBE NEWSWIRE) -- [Intellinetics, Inc.](#), a cloud-based document content services provider, announced today that the company will be partnering with [Software Unlimited Inc.](#) (SUI), a major software developer and publisher of solutions for the K-12 market. The arrangement sets the stage for SUI to add fully integrated document management capabilities within its School Accounting System for K-12 school districts.

Intellinetics' flagship IntelliCloud™ platform delivers mission-critical, secure document content services for business teams in any size organization with significant document compliance, security, and workflow automation needs that must always be audit-ready. IntelliCloud will be seamlessly integrated into SUI's K-12 accounting solution enabling its users to search, view, add and edit documents directly within SUI software's user experience.

"By partnering with Intellinetics, we are able to offer our K-12 clients an even more robust and complete software solution," said [Cory Atkinson](#), Director of Sales and Marketing. "The flexible and easy-to-use interface enables users to get up and running quickly. Because Intellinetics really understands the unique needs of the K-12 market, we see this partnership as a key to expanding into areas well beyond financial operations. This includes employee records and student records, creating additional avenues for new customers to take their first steps with SUI."

The initial Q4 '18 launch will begin following SUI's completion of the initial integrations in September. However, due to customer demand, initial orders have already been taken.

"There is obviously a pent-up demand for this type of solution," said Atkinson, "because we already have customers lining up to secure their purchase."

"This is a good indicator that our strategy to focus in key markets such as K-12 and align ourselves with strategic solution partners is the right path," said [James F. DeSocio](#), President & CEO of Intellinetics. "We're confident in the road map we have laid out designed to grow our business, and it is rewarding to see the initial successes. The ability to embed our solution within a proven software platform is a key building block for our mutual growth."

About Intellinetics, Inc.
