Triangle Capital Corporation Reports Third Quarter Results and Increases Quarterly Dividend to \$0.27 Per Share

RALEIGH, N.C., Nov. 7, 2007 (PRIME NEWSWIRE) -- Triangle Capital Corporation (Nasdaq:TCAP) ("Triangle" or "the Company"), a leading specialty finance company that provides customized financing solutions to lower middle market companies located throughout the United States, today announced its results for the third quarter of 2007, and increased its quarterly dividend to \$0.27 per share.

Third Quarter 2007 Results

Total investment income during the third quarter of 2007 was \$3.6 million, compared to total investment income of \$3.3 million for the second quarter of 2007, representing an increase of 9.3%. The Company's increase in total investment income is primarily attributed to an increase in investment interest, fee and dividend income due to a net increase in portfolio investments from June 30, 2007 to September 30, 2007.

Net investment income during the third quarter of 2007 was \$2.0 million, compared to net investment income of \$1.6 million for the second quarter of 2007, representing an increase of 21.2%. Net investment income per share during the third quarter of 2007 was \$0.30 compared to \$0.25 during the second quarter of 2007. The Company's net investment income during the third quarter of 2007 was positively impacted by approximately \$0.2 million of non-recurring fee income relating primarily to loan prepayment fees and debt amendment fees. These non-recurring fees equated to \$0.03 of net investment income on a per share basis during the third quarter of 2007.

The Company's net increase in net assets resulting from operations was \$3.4 million during the third quarter of 2007, as compared to \$2.2 million during the second quarter of 2007. The Company's net increase in net assets resulting from operations was \$0.50 per share during the third quarter of 2007 as compared to \$0.33 per share during the second quarter of 2007.

The Company's net asset value per share at September 30, 2007, was \$13.99 as compared to the Company's net asset value per share at June 30, 2007, of \$13.75. As of September 30, 2007, the Company's weighted average yield on all of its outstanding debt investments was approximately 13.8%.

"We are very pleased to announce a solid quarter-over-quarter increase in net investment income, particularly during a time in the credit markets that many find challenging. We have continued to identify well-collateralized investment opportunities, and are very pleased with the quality of our investment portfolio which contains no sub-prime mortgage related exposure," said Garland S. Tucker, III, President and CEO of Triangle.

Dividend Information

Triangle's board of directors has declared a cash dividend of \$0.27 per share. The dividend will be payable as follows:

Record Date:	November 29, 2007
Payment Date:	December 27, 2007

"Triangle continues to pace ahead of its business plan in terms of providing shareholders with a strong recurring dividend yield," said Steven C. Lilly, Triangle's Chief Financial Officer. "As our investment portfolio matures we anticipate our future dividend yield will continue to be attractive."

Triangle has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends on behalf of its shareholders, unless a shareholder elects to receive cash. As a result, when the Company declares a cash dividend, shareholders who have not opted out of the DRIP will have their cash dividends automatically reinvested in additional shares of the Company's common stock, rather than receiving cash dividends.

When the Company declares and pays dividends, it determines the allocation of the distribution between current income, accumulated income and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the dividend allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes.

During the third quarter the Company made an additional \$1.9 million subordinated debt investment in an existing portfolio company, and two new investments totaling \$11.2 million, of which \$9.3 million was senior debt, \$0.9 million was second lien debt, and \$1 million was equity.
