Second Quarter 2019 Results

Commenting on the quarter, Eric Lloyd, Chief Executive Officer, stated, "We are pleased with our performance and the solid quarter of growth we had in our middle-market investment portfolio. Investment activity for the quarter was highlighted by seven new senior secured private debt investments totaling \$67.1 million and the \$5.2 million initial investment in Joccasee Partners, the joint venture we entered into with South Carolina Retirement Systems Group Trust. In addition, we earned net investment income of \$0.15 per share, which exceeded our second quarter dividend by \$0.02 per share. These earnings, along with our share repurchase plan, have contributed to our second quarter positive results."

During the three months ended June 30, 2019, the Company reported total investment income of \$19.6 million, net investment income of \$7.4 million, or \$0.15 per share, and a net increase in net assets resulting from operations of \$9.2 million, or \$0.18 per share.

Net asset value ("NAV") per share as of June 30, 2019 was \$11.59, as compared to \$11.52 as of March 31, 2019. The increase in NAV per share from March 31, 2019 to June 30, 2019 was primarily attributable to net unrealized appreciation on the Company's investment portfolio of approximately \$0.04 per share, net investment income exceeding the second quarter dividend by \$0.02 per share and the impact of accretive share repurchases of \$0.01 per share.

Share Repurchase Plan

On February 25, 2019, the Company adopted a share repurchase plan, pursuant to Board approval, for the purpose of repurchasing shares of the Company's common stock in the open market (the "Share Repurchase Plan"). The Board authorized the Company to repurchase in 2019 up to a maximum of 5.0% of the amount of shares outstanding under the following targets:

- a maximum of 2.5% of the amount of shares of the Company's common stock outstanding if shares trade below NAV per share but in excess of 90% of NAV per share; and
- a maximum of 5.0% of the amount of shares of the Company's common stock outstanding if shares trade below 90% of NAV per share.

As of July 29, 2019, the Company had repurchased a total 969,789 shares of its common stock in the open market under the Share Repurchase Plan at an average price of \$9.95 per share, including broker commissions. The shares of common stock purchased under the Share Repurchase Plan represent approximately 1.9% of the Company's issued and outstanding shares as of February 25, 2019.

Liquidity and Capitalization

On May 9, 2019, the Company completed a term debt securitization (the "Debt Securitization") through a private placement of eight-year notes, with \$348.25 million issued to third parties. Proceeds from the Debt Securitization were primarily used to repay borrowings under the Barings BDC Senior Funding I, LLC credit agreement (the "BSF Credit Agreement"). In addition, total commitments under the BSF Credit Agreement were reduced from \$600.0 million to \$250.0 million during the second quarter.

As of June 30, 2019, the Company had cash of \$12.9 million, short-term money market fund investments of \$34.4 million, \$210.5 million of borrowings outstanding under the BSF Credit Agreement, \$75.0 million of borrowings outstanding under its \$800.0 million senior secured revolving credit agreement and \$348.25 million outstanding under the Debt Securitization.

The Company's third quarter dividend will be payable as follows:

Third Quarter 2019 Dividend:

Amount per share:	\$0.14
Record date:	September 11, 2019
Payment date:	September 18, 2019

Dividend Reinvestment Plan

Barings BDC has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends and distributions on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend or distribution, stockholders who have not opted out of the DRIP will have their cash dividends or distributions automatically reinvested in additional shares of the Company's common stock, rather than receiving cash.

When the Company declares and pays dividends and distributions, it determines the allocation of the distribution between current income, accumulated income and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes. The tax status of the Company's distributions can be found on the Investor Relations page of its website.
