Net income per diluted share of \$1.37 exceeds guidance range

Record level quality of freight positions Forward well

GREENEVILLE, Tenn.--(BUSINESS WIRE)-- Forward Air Corporation (NASDAQ:FWRD) (the "Company", "we", "our", or "us") today reported financial results for the three months ended March 31, 2023 as presented in the tables below.

Tom Schmitt, Chairman, President and CEO, commenting on first quarter results said, "Our reported net income per diluted share of \$1.37 exceeded the high end of our \$1.30 to \$1.34 guidance range. Having said that, we would not have made guidance if not for a one-time benefit of approximately \$0.24 from the substantial reversal of an accrual for an incentive plan established for employees in 2021. The reversal was driven by the headwinds we continue to experience from the weaker-than-expected freight environment. The softer than anticipated demand throughout the first quarter resulted in a 9% decline in revenue, below the low end of our guidance range of minus 4% to plus 2%."

Mr. Schmitt continued, "Looking ahead, we believe our revenue growth strategies position the company to perform extremely well as the freight recession abates. Our revenue quality continues to improve notwithstanding a decline in revenue. Compared to our performance in a robust freight environment in March 2022, our revenue per ton mile excluding fuel increased 2.5% for airport-to-airport and 4% for door-to-door. Similarly, our freight quality remains at top levels. Our weight per shipment in March of 786 pounds is comparable to March of last year and roughly 140 pounds higher than it was in March 2021. Our linehaul network continues to operate efficiently with our outside miles at 5% - in record low territory. Still, we are not there yet. On a year over year basis, we saw pounds per day down 12% in the first quarter and that softness persisted in the first few weeks of April. However, we may be seeing the beginnings of an improving freight environment, as our tonnage per day edged up to minus 5% in the most recent weeks. Even with some early signs of a recovery, we believe the current freight environment will be more challenging than anticipated leading to a revised target net income per diluted share for 2023 that we now expect will be less than 2022. In light of this, at this point, we are targeting net income per diluted share of \$6.20 to \$6.60 for the full year 2023, which assumes that the freight environment will significantly improve in the second half of the year. These updated targets align with the updated revenue growth and cost savings bridge that we reviewed on our previous earnings call."

In closing, Mr. Schmitt said, "In the first quarter, our teammates and independent contractors went above and beyond to keep our commitments to our customers. We are proud to be the best in the LTL industry in damage-free, intact, on-time shipments - making us the most

compelling choice for customers with shipments of consequence."

Regarding the Company's second quarter 2023 guidance, Rebecca J. Garbrick, CFO, said, "We expect our year-over-year revenue to decline 7% to 17% and net income per diluted share in the range of \$1.28 to \$1.32, compared to reported net income per diluted share of \$2.04 in the second guarter of 2022."

#### Forward Air Corporation Reconciliation of Non-GAAP Financial Measures

In this press release, the Company uses non-GAAP financial measures that are derived on the basis of methodologies other than in accordance with GAAP. The Company believes that meaningful analysis of its financial performance requires an understanding of the factors underlying that performance, including an understanding of items that are non-operational. Management uses these non-GAAP financial measures in making financial, operating, compensation and planning decisions as well as evaluating the Company's performance.

For the three months ended March 31, 2023 and 2022, this press release contains the following non-GAAP financial measures: earnings before interest, taxes, depreciation and amortization ("EBITDA") and free cash flow.

The Company believes that EBITDA improves comparability from period to period by removing the impact of its capital structure (interest and financing expenses), asset base (depreciation and amortization) and tax impacts. The Company believes that free cash flow is an important measure of its ability to repay maturing debt or fund other uses of capital that it believes will enhance shareholder value.

Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's financial results prepared in accordance with GAAP. Non-GAAP financial information does not represent a comprehensive basis of accounting. As required by the Securities and Exchange Act of 1933 and the rules and regulations promulgated thereunder, the Company has included, for the periods indicated, a reconciliation of the non-GAAP financial measure to the most directly comparable GAAP financial measure.

The following is a reconciliation of net income to EBITDA for the three months ended March 31, 2023 and 2022 (in thousands):
