# Northern Oil and Gas, Inc. Announces 2018 Second Quarter Results and Increases 2018 Production Guidance

MINNEAPOLIS--(BUSINESS WIRE)-- Northern Oil and Gas, Inc. (NYSE American: NOG) today announced 2018 second quarter results and increased the company's full-year 2018 production guidance.

## HIGHLIGHTS

- Raising full year 2018 production guidance; expect average daily production to increase by 60 - 64% over 2017.
- Second quarter production exceeded expectations, increasing 53% year-over-year and 17% sequentially to average 21,046 barrels of oil equivalent ("Boe") per day.
- Exited the second quarter with 16.4 net wells in process after adding 8.1 organic net wells to production.
- Announced \$500 million in signed acquisitions year-to-date using a combination of cash and equity, which Northern expects to fold into its existing asset base without the addition of new employees.

## MANAGEMENT COMMENT

"We are only half way through 2018; however, production has materially exceeded our expectations, cash costs are lower and our success executing on acquisitions has surpassed even our lofty internal goals," commented Northern's Chief Executive Officer, Brandon Elliott. "We plan to close our Pivotal Petroleum and W Energy acquisitions at the end of the third quarter, upon which Northern will have reached our goals of substantially growing EBITDA and improving our debt metrics, significantly ahead of plan. We are still not satisfied and continue to aggressively look at all avenues to drive increased growth and returns to our shareholders."

## GUIDANCE

Northern is raising its 2018 production guidance as a result of increased activity as well as the recently announced Pivotal Petroleum and W Energy acquisitions that are expected to close at the end of the third quarter. Northern expects to add approximately 25 - 27 organic net wells to production for the year with a drilling and completion budget of

between \$200 and \$216 million, resulting in a total capital expenditure budget, including acreage, workover and other capitalized costs but excluding announced acquisitions, of between \$215 and \$230 million. Additional information regarding Northern's current expectations are included in the tables below.

<b>2018 Production:</b>	<b>Boe Per Day</b>	<b>Year/Year Increase</b>

## **SAFE HARBOR**

This press release contains forward-looking statements regarding future events and future results that are subject to the safe harbors created under the Securities Act of 1933 (the "Securities Act") and the Securities Exchange Act of 1934 (the "Exchange Act"). All statements other than statements of historical facts included in this release regarding Northern's financial position, business strategy, plans and objectives of management for future operations, industry conditions, and indebtedness covenant compliance are

forward-looking statements. When used in this release, forward-looking statements are generally accompanied by terms or phrases such as “estimate,” “project,” “predict,” “believe,” “expect,” “continue,” “anticipate,” “target,” “could,” “plan,” “intend,” “seek,” “goal,” “will,” “should,” “may” or other words and similar expressions that convey the uncertainty of future events or outcomes. Items contemplating or making assumptions about actual or potential future sales, market size, collaborations, and trends or operating results also constitute such forward-looking statements.

Forward-looking statements involve inherent risks and uncertainties, and important factors (many of which are beyond our company’s control) that could cause actual results to differ materially from those set forth in the forward-looking statements, including the following: changes in crude oil and natural gas prices, the pace of drilling and completions activity on Northern’s current properties and properties pending acquisition, Northern’s ability to acquire additional development opportunities, changes in Northern’s reserves estimates or the value thereof, general economic or industry conditions, nationally and/or in the communities in which Northern conducts business, changes in the interest rate environment, legislation or regulatory requirements, conditions of the securities markets, Northern’s ability to consummate any pending acquisition transactions, other risks and uncertainties related to the closing of pending acquisition transactions, Northern’s ability to raise or access capital, changes in accounting principles, policies or guidelines, financial or political instability, acts of war or terrorism, and other economic, competitive, governmental, regulatory and technical factors affecting our company’s operations, products and prices.

Northern has based these forward-looking statements on its current expectations and assumptions about future events. While management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond Northern’s control. Northern does not undertake any duty to update or revise any forward-looking statements, except as may be required by the federal securities laws.

#### Non-GAAP Financial Measures

Adjusted Net Income and Adjusted EBITDA are non-GAAP measures. Northern defines Adjusted Net Income as net income (loss) excluding (i) (gain) loss on the mark-to-market of derivative instruments, net of tax, (ii) write-off of debt issuance costs, net of tax, and (iii) loss on the extinguishment of debt, net of tax. Northern defines Adjusted EBITDA as net income (loss) before (i) interest expense, (ii) income taxes, (iii) depreciation, depletion, amortization and accretion, (iv) (gain) loss on the mark-to-market of derivative instruments, (v) non-cash share based compensation expense, (vi) write-off of debt issuance costs, and (vii) loss on the extinguishment of debt. A reconciliation of each of these measures to the most directly comparable GAAP measure is included below. Management believes the use of these non-GAAP financial measures provides useful information to investors to gain an overall understanding of current financial performance.

Specifically, management believes the non-GAAP results included herein provide useful information to both management and investors by excluding certain expenses and unrealized derivatives gains and losses that management believes are not indicative of Northern's core operating results. In addition, these non-GAAP financial measures are used by management for budgeting and forecasting as well as subsequently measuring Northern's performance, and management believes it is providing investors with financial measures that most closely align to its internal measurement processes.
