# Ingram Micro Announces MEA Training Partnership With Intel Security

## The Hands-On Security Training Offers IT Professionals in the Region Necessary Skills to Manage Latest Intel Security Solutions

DUBAI, UNITED ARAB EMIRATES -- (Marketwired) -- 05/11/15 -- **Ingram Micro Middle East** (NYSE: IM) today announced its partnership on training solutions across MEA with Intel Security, a leading provider of comprehensive security.

Intel Security offers a range of comprehensive product training and security education services to help security professionals successfully deploy and manage Intel Security solutions and gain critical skills to improve overall endpoint, data, and network security. As one of Intel Security's distributors, Ingram Micro delivers a set of Intel Security's most popular courses across MEA including Endpoint Protection, Network Security, Security Information and Event Management Administration, and Data Protection products.

"Adding Intel Security to our portfolio of vendor-authorized training is a significant step marking the increased demand for cyber security solutions across the region," said Zornitza S. Hadjitodorova, Head of Ingram Micro Education Services for Middle East and Africa. "Considering MEA is emerging market, IT training is essential for our partners to have the right level of knowledge to both sell and install, configure, manage and troubleshoot Intel Security products," Hadjitodorova added.

Intel Security emphasizes the essential hands-on classroom instruction to give a holistic picture of network security implemented in a variety of environments. "We believe in providing the best proactive training available to our clients and IT professionals in the region essential for keeping up to date with Intel Security product knowledge," said Hamed Diab, Intel Security's Regional Director. "We are confident that our partnership with Ingram Micro Training Middle East and Africa will be of a great benefit to businesses, organizations, and individuals in the region by equipping them with the skills critical to stay protected with Intel Security solutions," Diab concluded.

Taught by the region's foremost network security experts and featuring interactive demonstrations and hands-on lab exercises, classes at Ingram Micro Training are in-depth sessions in the classroom or virtually via online lab to gain all the skills needed to successfully manage Intel Security solutions.
