Apollo Global Management, Inc. Reports First Quarter 2021 Results

NEW YORK, May 04, 2021 (GLOBE NEWSWIRE) -- Apollo Global Management, Inc. (NYSE: APO) (together with its consolidated subsidiaries, "Apollo") today reported results for the first quarter ended March 31, 2021.

"The first quarter was incredibly strong for Apollo, with record GAAP earnings of \$2.81 per share and record fee related earnings of \$0.65 per share, up 26% year over year. Our private equity portfolio is incredibly well positioned for the reopening of the U.S. economy and showed significant appreciation of +22% in the quarter. Substantial progress was made in implementing our strategic growth plan, most importantly with the announcement of our merger with Athene. In the quarter, we further positioned ourselves for growth with the scaling of our High Grade Alpha platform and the launch of our GP Solutions / Credit Secondaries business. Lastly, we have announced the changes to our governance to establish a simpler, more transparent structure, and are well on our way toward implementing them, and expect to be eligible for additional index inclusion upon close of the merger," said Marc Rowan, Chief Executive Officer.
