

Company Overview

Surge leverages its wholly owned subsidiaries (value driven Prepaid Wireless and Fintech products) to build relationships with convenience stores, bodegas, tiendas and community markets that serve the underbanked.....which is now approximately 35% of the people living in the United States. Once the store is onboarded to the SurgePays network and the trusted profit partnership is established then, Surge facilitates the sale of other consumable products through our wholesale marketplace by connecting manufacturers directly to these retail stores.

The SurgePays Marketplace is built on Blockchain Technology and has created a new sales channel that disrupts the traditional c-store distribution and products sales model by providing local retailers with direct access to regional manufacturers from around the country.

This Marketplace software platform additionally provides manufacturers a lower cost and more efficient platform to access mom-n-pop retailers to sell products nationwide without the need to offer cash-flow crunching "net" terms to distributors.
