"Through the launch of the Healthy Active Lifestyle mobile app, we hope to provide a

tool to help people adopt positive nutrition and lifestyle habits in daily living. We believe these simple lifestyle habits can have significant benefits to our overall well-being in the long run," said Steven Sze, General Manager of Herbalife Nutrition Hong Kong and Macau.

To empower teenagers with knowledge of healthy active lifestyle and computer programming, Herbalife Nutrition Hong Kong sponsored Po Leung Kuk to hold a mobile app course for students from 16 primary and secondary schools. The course was conducted at Po Leung Kuk Cheung Hong Youth Development Centre during the summer.

The Healthy Active Lifestyle mobile app launch and the mobile app course are the latest co-operations between Herbalife Nutrition and Po Leung Kuk. Since 2013, Herbalife Family Foundation – a non-profit organization dedicated to improving nutrition for children in need, has been supporting Po Leung Kuk Cheung Hong Youth Development Centre to implement "The World of Healthy Growth" program. This aims to boost students' and parents' awareness of the importance of healthy breakfast. To date, more than 14 schools have participated in the program, benefitting 2,000 students.
