Toshiba Taps AMD Platform for New Notebooks

-- Significant Win Expands AMD's Footprint in Fast-Growing Mobile Market --

SUNNYVALE, Calif.--(BUSINESS WIRE)--

AMD (NYSE:AMD) today announced that Toshiba will launch three Satellite(R) notebook PCs based on an AMD mobile platform. Combining advanced mobile processor performance with outstanding graphics, Toshiba will offer systems in the popular Satellite product line based on AMD Turion(TM) 64 X2 dual-core mobile technology and the AMD M690 Series Chipset. Toshiba, one of the world's largest notebook providers, is expected to start shipping the new consumer notebooks in time for the back-to-school season.

"Today signifies another important success for AMD's mobile business as we welcome Toshiba and expand our footprint in the rapidly growing notebook market. With a majority of notebook OEMs now shipping AMD processor-based systems, this win underscores AMD's mobile technology roadmap strength and our ability to provide OEMs with a suite of products enabling a compelling open platform solution," said Henri Richard, executive vice president and chief sales and marketing officer, AMD. "With AMD and our industry-leading technology partners, Toshiba is bringing customers around the world a new level of choice in notebook PCs."

"Our collaboration with AMD is intended to satisfy the demands of a broader market for mobile computing," stated Hisatsugu Nonaka, corporate senior vice president and president and CEO of Toshiba's Personal Computer & Network Company. "Toshiba is dedicated to working with industry-leading suppliers in developing innovative products that can generate value for our customers."

Toshiba plans to first launch the AMD-based notebooks in the United States and Europe. Toshiba is the latest OEM to participate in the AMD Better by Design program which enables leading global OEMs to design notebook PCs that provide users with better performance and superior graphics and wireless connectivity, while delivering increased energy efficiency for extended battery life.

Together, AMD Turion 64 X2 dual-core mobile technology and the AMD M690 Series Chipset deliver a superior mobile computing platform experience. AMD's open platform strategy enables leading global OEMs to design notebook PCs with a choice of leading graphics technologies that deliver performance and smooth video playback with increased energy efficiency for extended battery life.

About AMD

Advanced Micro Devices (NYSE:AMD) is a leading global provider of innovative processing solutions in the computing, graphics and consumer electronics markets. AMD is dedicated to driving open innovation, choice and industry growth by delivering superior customer-centric solutions that empower consumers and businesses worldwide. Cautionary Statement

This press release contains forward-looking statements including but not limited to component and platform versions, new model and/or product releases, and product differences between differing manufacturers or the like including statements relating to performance, stability, graphics image quality, increased battery life and enhanced consumer experiences, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from the company's current expectations. Assumptions applied in making, and potential risks that could cause actual results to differ materially from such forward-looking statements include, among others, software and/or hardware-related issues and conflicts, that we may not be able to develop, launch and ramp new products and technologies in the volumes and mix required by the market at mature yields and on a timely basis, and overall system performance. We therefore cannot provide any assurance that such forward-looking statements will materialize. We assume no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or any other reason. We urge investors to review in detail the risks and uncertainties in our Securities and Exchange Commission filings, including but not limited to the Quarterly Report on Form 10-Q for the quarter ended October 1, 2006.
