MEDIA ALERT: Equinix to Break Ground on SV10 -- Newest Silicon Valley Data Center

REDWOOD CITY, Calif., June 14, 2016 /PRNewswire/ -- Equinix, Inc. (Nasdaq: EQIX), the global interconnection and data center company, today announced that it will hold a ceremony to commemorate the ground breaking at its development site in San Jose, California. Located adjacent to its existing SV1 and SV5 International Business Exchange™ (IBX®) data centers, the new site will be built on 11 acres of land purchased by Equinix and will augment the existing San Jose Great Oaks campus.

Equinix and Silicon Valley

Equinix data centers in the Silicon Valley area serve 600+ customers and represent the second largest Internet exchange point in North America. Equinix has invested approximately $275 million in the local economy with its existing SV1 and SV5 data centers, and the company will invest an additional $125 million in the development of the first phase of the SV10 IBX data center. These facilities house rich ecosystems that allow network and content providers, cloud and IT service providers, and enterprise customers to quickly and efficiently exchange critical business data with their customers and partners through interconnection.

About the Event

Local government officials from the City of San Jose and customers will join Equinix to discuss the significance of this build site, what this increased investment will mean for the local economy and why Silicon Valley and San Jose is a strategic connectivity point in the broader digital economy.
