WASHINGTON, May 30, 2018 /PRNewswire/ -- Avant Diagnostics, Inc. ("Avant") (OTC: AVDX), an oncology-focused healthcare data-generating solutions company commercializing the proprietary Theralink® phospho-protein biomarker platform across multiple cancers, today announced that it has entered into securities purchase agreements with accredited investors pursuant to which the Company sold 650,000 shares of the Company's newly designated Series A Preferred Stock (the "Series A Preferred Stock") for aggregate gross proceeds of \$650,000. The Series A Preferred Stock will control a majority of the voting power of the Company. Upon consummation of a reverse stock split of the Company's common stock, resulting in approximately 15,000,000 shares of the Company's common stock outstanding, the investors shall subsequently take all necessary steps with the Company to convert all outstanding shares of the Series A Preferred Stock into shares of the Company's common stock.
