

Company Overview

Qualigen is a biotechnology company focused on the development and commercialization of novel therapeutic products for the treatment of cancer and infectious diseases, as well as expansion of its flagship FastPack® diagnostic platform. The FastPack® line of FDA-cleared and CE-Marked products has been used successfully in diagnostics since 2002. Our therapeutics pipeline includes cancer drug compounds such as AS1411, AS1411-GNP and RAS-F, as well as STARS, a DNA/RNA-based treatment device. By combining our demonstrated ability to quickly develop and commercialize innovative medical products with the advanced capabilities of leading cancer research centers, such as the University of Louisville, we are committed to providing exciting new therapeutic technologies to physicians and patients.
