

OUR COMMITMENT TO SAFETY, SECURITY, HEALTH AND ENVIRONMENTAL PROTECTION

NCL (Bahamas) Ltd. will provide exceptional vacation experiences, delivered by passionate team members committed to world-class hospitality and innovation.

In support of this mission, it is imperative that we provide the safest cruising experience for our guests and crew, while minimizing our footprint on the environment.

To fulfill our commitment, we will:

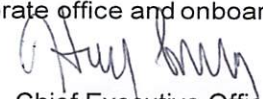

- Meet or exceed regulatory requirements.
- Strive to eliminate accidents, injuries and damage to property by making health, security and safety our number one priority.
- Consider the impact of our operations on the environment in our decision-making process. Establish and achieve performance goals that work to further our obligation towards sustainability.
- Continually improve processes through best management practices, innovation, and simplification.

A Safety Management System is implemented and maintained to support our pledge through the following activities and beliefs:

- Commit to, and assume personal responsibility for, the Company's Core Values:
 - Flawless Execution
 - Dedication to Family & Community
 - Spirit of Entrepreneurship
 - Financial Excellence
 - Environmental Stewardship
- Define and document responsibility for authority and inter-relations of shore side and shipboard personnel.
- Reporting incidents and accidents promptly so that effective corrective and preventive actions can be taken.
- Developing efficient procedures to assess and address significant risks.
- Evolving safeguards and procedures to continuously identify, monitor and mitigate any significant risks. Identifying qualified Designated Persons Ashore - that have direct access to the highest level of management, are approachable by any interested party, and ensure that adequate support resources are made available for the safe operation of the fleet.

Performance of the Safety Management System will be measured and evaluated through periodic audits and other means which shall be reported to senior management on a timely basis.

The above is in support of our 24/7/365 culture of compliance both in our corporate office and onboard our vessels.

Chief Executive Officer
