Focus Universal to Debut Ubiquitors at 12th Annual MJBizCon Expo and 2024 Annual Conference & California School Business Expo

ONTARIO, CA and LOS ANGELES, CA / ACCESSWIRE / October 17, 2023 Focus Universal Inc. (NASDAQ:FCUV) ("Focus" or the "Company"), a provider of patented hardware and software design technologies for Internet of Things (IoT) and 5G announced today that the Company will reveal its Ubiquitor products at 12th Annual MJBizCon on November, 29 through December 1st, 2023 at Las Vegas Convention Center and also at the 2024 Annual Conference & California School Business Expo on April 7 through April 10, 2024 at the Palm Springs Convention Center in California.

"Unlike most electronic devices on the market that can perform only single pre-defined function, the Ubiquitor can perform multiple customized functions. It eliminates the need for multiple devices and allows for efficient utilization of a single device for various applications. It has the capability to monitor and control multiple sensors or actuators, making it suitable for performing local IoT functions at a fraction of the cost," said Dr. Desheng Wang, CEO of Focus Universal. He continued, "These devices are versatile commercial products with real-world applications. Changing device sensors is all that is required for the Ubiquitor to switch from one type of device to another without revising the software and redesigning the hardware. The company has successfully achieved a critical technology milestone, indicating that the Ubiquitor is ready for commercialization and public demonstration."

About Focus Universal:

Focus Universal Inc. (NASDAQ:FCUV) is a provider of patented hardware and software design technologies for Internet of Things (IoT) and 5G. The company has developed five disruptive patented technology platforms with 28 patents and patents pending in various phases and 8 trademarks pending in various phases to solve the major problems facing hardware and software design and production within the industry today. These technologies combined to have the potential to reduce costs, product development timelines and energy usage while increasing range, speed, efficiency, and security. Focus currently trades on the Nasdaq Global Markets.

Forward-Looking Statements:

Statements in this press release about future expectations, plans and prospects, as well as any other statements regarding matters that are not historical facts, may constitute "forward-looking statements" within the meaning of The Private Securities Litigation Reform Act of 1995. The words "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "target," "will," "would" and similar expressions are intended to identify forward-looking statements, although not all forward-

looking statements contain these identifying words. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: the uncertainties related to market conditions and the completion of the public offering on the anticipated terms or at all, and other factors discussed in the "Risk Factors" section of the preliminary prospectus filed with the SEC. Any forward-looking statements contained in this press release speak only as of the date hereof and Focus Universal specifically disclaims any obligation to update any forward-looking statement, whether because of new information, future events or otherwise.
