Healthtech Solutions Inc. is an innovative portfolio-model life sciences company focused on building impactful solutions for patients and the healthcare system through our subsidiary companies ranging in stage from pre-clinical to commercial growth. At Healthtech, we are driven by innovation and people. At the core, our philosophy is that highly motivated people with ambitious goals can achieve breakthroughs with the right organizational support. From our perspective, breakthroughs often occur at the intersection of multiple approaches, so we are agnostic to the solution - therapeutics, devices, diagnostics, digital technology, or a combination. Healthcare, illness, and injury are multifactorial, and we believe the solutions often need to be multi-pronged to succeed.
