About Healthtech Solutions Inc.

Healthtech Solutions Inc. is an innovative portfolio-model life sciences company focused on building impactful solutions for patients and the healthcare system through our subsidiary companies ranging in stage from pre-clinical to commercial growth. At Healthtech, we are driven by innovation and people. At the core, our philosophy is that highly motivated people with ambitious goals can achieve breakthroughs with the right organizational support. By identifying and building visionary teams within an ecosystem that fuels their strengths, we believe that we can collectively accelerate the next wave of advancements in healthcare. From our perspective, breakthroughs often occur at the intersection of multiple approaches, so we are agnostic to the solution - therapeutics, devices, diagnostics, digital technology, or a combination. In fact, we hypothesize that some of the most promising breakthroughs will occur at the interface of these traditional silos, which has already begun to occur.

Healthcare, illness, and injury are multifactorial, and we believe the solutions often need to be multi-pronged to succeed.
