Public Disclosure Statement

Forward-Looking Statements

Except for historical information, this presentation contains forward-looking statements which include words such as "believe," "anticipate," and "expect." These forward-looking statements involve risks and uncertainties that may cause Equinix's actual results to differ materially from the expectations discussed in such forward-looking statements. Factors that might cause such differences include, but are not limited to, risks to our business and operating results related to the current inflationary environment; foreign currency exchange rate fluctuations; stock price fluctuations; availability of power, increased costs to procure power and the general volatility in the global energy market; the challenges of acquiring, operating and constructing IBX and xScale data centers and developing, deploying and delivering Equinix products and solutions; delays related to the closing of any planned acquisitions subject to closing conditions; unanticipated costs or difficulties relating to the integration of companies we have acquired or will acquire into Equinix; a failure to receive significant revenues from customers in recently built out or acquired data centers; failure to complete any financing arrangements contemplated from time to time; competition from existing and new competitors; the ability to generate sufficient cash flow or otherwise obtain funds to repay new or outstanding indebtedness; the loss or decline in business from our key customers; risks related to our taxation as a REIT; risks related to regulatory inquiries or litigation; and other risks described from time to time in Equinix's filings with the Securities and Exchange Commission. Refer to our annual report on Form 10-K filed with the SEC on February 12, 2025. In addition, Equinix does not assume any obligation to update the forward-looking information contained in this presentation.

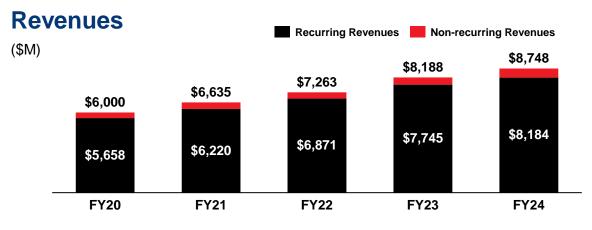

Non-GAAP Information

This presentation contains references to certain non-GAAP financial measures. For definitions of terms including, but not limited to, "Cash Gross Profit," "Cash Gross Margins," "Cash SG&A," "Adjusted EBITDA," "Funds From Operations," "Adjusted Funds From Operations," and "Adjusted Net Operating Income," and a detailed reconciliation between the non-GAAP financial results presented in this presentation and the corresponding GAAP measures, please refer to the supplemental data and the appendix of this presentation.

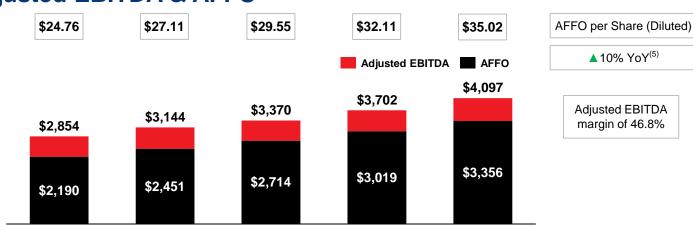

Changes to Prior Period

We converted the presentation of disclosures from thousands to millions in the first quarter of 2024. Certain rounding adjustments have been made to prior period disclosed amounts.

Delivered our 22nd year of consecutive quarterly revenue growth driven by record gross bookings, firm pricing and continued xScale momentum with EBITDA margin expansion of 160 basis points

Revenues and adjusted EBITDA normalized for acquisitions, integration costs and other adjustments. Normalized MRR excludes non-recurring revenues. AFFO normalized for the incremental net interest expense related to acquisition financing and other gains and losses. Constant currency assumes average FX rates used in our financial results remain the same over the comparative periods and removes the impact of gains or losses related to balance sheet remeasurement

FY22

FY21

On a normalized and constant currency basis excluding the YoY impact of the net power pass-through Q4 24 revenue

FY24

- (3) Absorbs seasonally higher spend on repairs and maintenance and margin flow through of xScale fit-out activity
- Absorbs the QoQ seasonally anticipated increase in recurring capex
- (5) 10% on a normalized and constant currency basis and 9% as-reported AFFO per Share growth

FY20

increased 7% YoY and FY24 revenue increased 8% YoY

xScale: Amplifying Our Balance Sheet to Extend Cloud Leadership

Recent Leasing Activity

- Leased ~31MW of capacity since our last earnings call in EMEA
- More than 85%+ leased or pre-leased across operational and under development xScale capacity

Overview

- In October, we announced our plans to nearly triple the investment capital of our xScale program with the formation a greater than \$15 billion joint venture with the Canada Pension Plan Investment Board, and Singapore's Government Investment Corporation.
- When fully built out, Equinix's global xScale program is now expected to represent more than \$23 billion of total investment or ~2GW of power capacity for hyperscale customers
- Our current xScale portfolio spans 20 operational facilities across all three regions

Benefits

- JV structures enable pursuit of strategic Hyperscale deployments to minimize dilution of Equinix returns and limits consumption of balance sheet and investment capacity
- (1) Newly added project since Q3 2024 earnings.
- (2) Totals may not sum due to rounding.
- (3) Includes all previously opened xScale facilities and announced projects.

The Three Pillars of Sustainability 11

Equinix believes in a future where technology drives sustainable growth and transformative social impact

Environment

Grow our digital infrastructure sustainably

- Achieved a 24% Reduction in operational emissions from 2019 base-line, making material progress toward our approved near-term Science-Based Target
- 96% Renewable Coverage globally against our 100% Renewable Energy Goal and over 90% every year since 2018
- Leveraging Green Finance to align our investments. Since 2020, issued ~\$6.9B in Green Bonds⁽²⁾
- Equinix was named to CDP's
 A List for third consecutive year⁽³⁾

Social

Drive social progress

- Partnered with 47 organizations to advance digital inclusion funded by Equinix Foundation in the first year of operations
- Building an inclusive culture and Company with 9 EECNs and 38 WeAreEquinix teams
- Promoting Health and Wellness and a Culture where All Employees Thrive; drove higher adoption of our EAP and aligned global benefits
- Connecting Our Communities with \$1.9M of Donations and Grants and an 11% increase in employee volunteering hours YoY

Governance

Lead with integrity

- Board ESG Oversight with 40%+ of the Board Members women
- Global Ethics and Responsibility, 100% completion of Anti-bribery and Corruption Training
- Aligning executive compensation for VP-level and above tied to our sustainability progress
- Public Policy & Advocacy, leader including Founding member of Asia-Pacific Data Center Association, the first of its kind trade association in region
- Promoting Supply Chain Sustainability & Diversity, engaging suppliers on climate change and ESG

Awards and recognition

We received recognition for our sustainable operations, innovations and commitment to building an ethical, inclusive place to work:

- Data derived from FY 2023 Equinix CSR Report published on April 25, 2024
- (2) Reflects Green Bonds issued as of December 2024
- (3) Reflects 2022 through 2024

⁽¹⁾ Impairment charges in FY 2024 relate to the Equinix Metal Wind Down and an IBX asset in the Asia-Pacific region

⁽²⁾ Impairment charges prior to FY 2024 were recorded in Other Income (Expense) in the Consolidated Statements of Operations. Impairment charges in FY 2023 relate to the impairment of an indemnification asset resulting from the settlement of a pre-acquisition uncertain tax position and was offset by the recognition of tax benefits in the same amount, which was included within the Income tax expense adjustment line on the table above

NAREIT Funds From Operations (NAREIT FFO)

- We calculate Funds From Operations in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). NAREIT FFO represents net income (loss), excluding gains (or losses) from disposition of real estate property, impairment charges related to depreciable real estate fixed assets, plus real estate related depreciation and amortization expense and after adjustments for unconsolidated joint ventures, and non-controlling interests.

Adjusted Funds from Operations (AFFO)

- We calculate AFFO by adding to or subtracting from NAREIT FFO:
 - 1. Plus: Amortization of deferred financing costs and debt discounts and premiums
 - 2. Plus: Stock-based compensation expense
 - 3. Plus: Stock-based charitable contributions
 - 4. Plus: Non-real estate depreciation, amortization and accretion expenses
 - 5. Less: Recurring capital expenditures
 - 6. Less/Plus: Straight line revenues/rent expense adjustments
 - 7. Less/Plus: Installation revenue adjustment
 - 8. Less/Plus: Contract cost adjustment
 - 9. Less/Plus: Gain/loss on debt extinguishment
 - 10. Plus: Restructuring charges, transaction costs and impairment charges
 - 11. Less/Plus: Income tax expense adjustment
 - 12. Less/Plus: Adjustments from discontinued operations, unconsolidated JVs and non-controlling interests

Definitions: Non-financial Metrics, Data Center growth, REIT Disclosures and Capital Expenditures

Non-Financial Metrics

MRR per Cab: Monthly recurring revenues per billed cabinet: (current quarter recurring revenues / 3) divided by ((quarter end cabinets billing prior quarter + quarter end cabinets billing current quarter) / 2). xScale JV fee income is excluded. Americas MRR per Cab excludes Infomart non-IBX tenant income and Equinix Metal. EMEA MRR per Cab excludes MainOne

Virtual connections: The number of private connections between customers over the Equinix Fabric platform

Internet Exchange Provisioned Capacity: The sum of all ports provisioned to customers multiplied by the gigabit bandwidth capacity of each port

Data Center Growth

New Data Centers: Phase 1 began operating after January 1, 2023

Expansion Data Centers: Phase 1 began operating before January 1, 2023, and there is an expected expansion of one or more additional phases leveraging the existing capital infrastructure, or a redevelopment of a previous phase. This also includes data centers where a new phase or redevelopment has opened for a previously stabilized data center after January 1, 2023

Stabilized Data Centers: The final expansion or redevelopment phase began operating before January 1, 2023

Unconsolidated Data Centers: Excludes non-data center assets

REIT Disclosures

Adjusted NOI Composition: Adjusted NOI is calculated by taking recurring revenues, deducting recurring cash costs, adding back operating lease rent expense and deducting cash SG&A allocated to the properties. The impact of operating lease rent expense is removed to reflect an owned income stream. Total cash rent is provided in the components of NAV. Regional SG&A expense is allocated to the properties to reflect the full sales, marketing and operating costs of owning a portfolio of retail colocation properties. In addition, Corporate SG&A is provided to show centralized organization costs that are not property-related and, therefore, excluded from adjusted NOI.

Components of NAV: A detailed disclosure of applicable cash flows, assets and liabilities to support a Net Asset Value (NAV). Net asset valuation involves a market-based valuation of assets and liabilities to derive an intrinsic value of equity. Operating cash flows are separated into real estate income (adjusted NOI), non-recurring income and other operating income in order to facilitate discrete composition valuations. New properties and CIP generating unstabilized cash flows are reflected based on gross asset value. Other assets and liabilities include only tangible items with realizable economic value. Balance sheet assets and liabilities without tangible economic value (i.e. goodwill) are excluded. Other ongoing expenses including cash rent and cash tax expenses are disclosed to facilitate a market valuation of those liabilities. Share count is provided on a fully-dilutive basis including equity awards.

Capital Expenditures

Recurring Capital Expenditures: To extend useful life of IBXs or other Equinix assets that are required to support current revenues

- Sustaining IT & Network: Capital spending necessary to extend useful life of IT & Network infrastructure assets required to support existing products and business & operations services. This includes hardware & network gear as well as development enhancements that extend useful life to Equinix portal and other system assets
- IBX Maintenance: Capital spending that extends useful life of existing IBX data center infrastructure; required to support existing operations
- Re-Configuration Installation: Capital spending to support second generation configuration of customer installations; these expenditures extend useful life of existing assets or add new fixed assets. This includes changes to cage build-outs, cabinets, power, network gear and security component installations

Non-Recurring Capital Expenditures: Primarily for development and build-out of new IBX capacity (does not include acquisition costs) as well as redevelopment of select IBXs that are near the end of its useful life. Also includes discretionary expenditures for expansions, transformations, incremental improvements to the operating portfolio (e.g. electrical, mechanical and building upgrades), IT systems, network gear or corporate offices which may expand the revenues base and increase efficiency

- IBX Expansion: Capital spending to build-out new IBX data centers construction, data center expansion phases or increased capacity enhancements
- IBX Redevelopment: Capital spending in select IBXs to enhance the revenue capacity, efficiency and/or operating standards of IBXs data centers that are near the end of their useful life
- Transform IT, Network & Offices: Capital spending related to discretionary IT, Network and Office transformation projects that primarily expand revenues or increase margins. This also includes Equinix office space remodeling expenditures
- Initial / Custom Installation: Capital spending to support first generation build-out for customer installations; this includes cage configuration, cabinet, power, network gear and security enhancements. This also includes custom installations and flex space installations
