Delivered our 60th quarter of consecutive revenue growth, benefiting from our global reach and interconnected ecosystems, derived from strong bookings, firm MRR yield per cabinet and healthy interconnection activity

⁽¹⁾ Q4 17 results include Itconic and the purchase of Istanbul 2 data center from Zenium ("IS2") which closed on October 9, 2017 and October 6, 2017, respectively, but excludes any benefit from the Metronode acquisition and the Infomart Dallas acquisition announced on December 17, 2017 and February 14, 2018, respectively

²⁾ Revenues and adjusted EBITDA normalized for Verizon (assumes 60% adjusted EBITDA margin), ICT, IO, IS2, Itconic, LD2, Paris 2/3, TerraPower and integration costs related to acquisitions. AFFO is also normalized for the incremental net interest expense related to Verizon financing. Constant currency assumes average currency rates used in our financial results remained the same over comparative periods

⁽¹⁾ Cabs Billing, MRR per Cab and Cross-connects include Verizon beginning in Q4 17 but exclude IS2 and Itconic

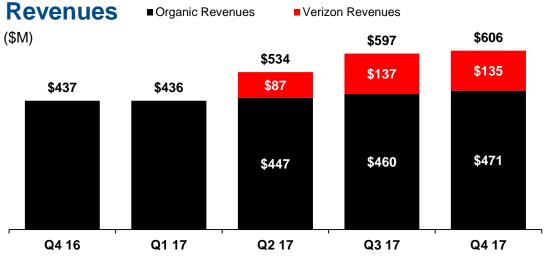

⁽²⁾ Cabs Billing represents the quarter end cabinet equivalent billing count

³⁾ MRR per Cab is monthly recurring revenues per billed cabinet: (current quarter monthly recurring revenues) divided by ((quarter end cabinets billing prior quarter + quarter end cabinets billing current quarter) / 2). MRR per Cab relatively flat QoQ on a constant currency basis. Constant currency basis assumes average currency rates used in our financial results remained the same over comparative periods. MRR per Cab calculation excludes Bit-isle MIS, Brazil, Colombia, IS2 and Itconic

⁽⁴⁾ Cross-connects represent the quarter end cross-connect count

ASC Topic 606

The Company adopted ASC 606, Revenue from Contracts with Customers ("ASC 606") using the modified retrospective method effective January 1, 2018. The Company believes the most significant impact from this standard relates to installation revenue and costs to obtain contracts. (1)

| (\$M) | Q1 18 Expected Impact | 2018 Expected Impact | Description |
|-------------------|-----------------------------|----------------------------|---|
| Revenues | (~\$3) | (~\$15) | Under the new standard, the Company expects to recognize installation revenue over the contract period rather than over the estimated installation life. Other revenue impacts from the new standard are not expected to be material. |
| SG&A Expenses | (~\$3) | (~\$15) | Under the new standard, the Company is required to capitalize and amortize incremental costs to obtain contracts. Therefore, these costs to obtain contracts will be capitalized and amortized over the life of the service. |
| Adjusted EBITDA | \$0 | \$0 | The Company expects the impacts on revenues and SG&A expenses to largely offset for 2018. |
| AFFO | \$0 | \$0 | Installation revenues are an existing adjustment to AFFO and the Company expects to add a contract cost adjustment to AFFO, the combination of which will largely neutralize the impacts of the new standard on AFFO. |
| Retained Earnings | \$267 - \$307 | \$267 - \$307 | The adoption of the new standard will have a cumulative effect to increase retained earnings to capture the retrospective impact from prior periods. |

⁽¹⁾ Represents the Company's best estimation of the impact and is subject to variation depending on Q1 2018 close

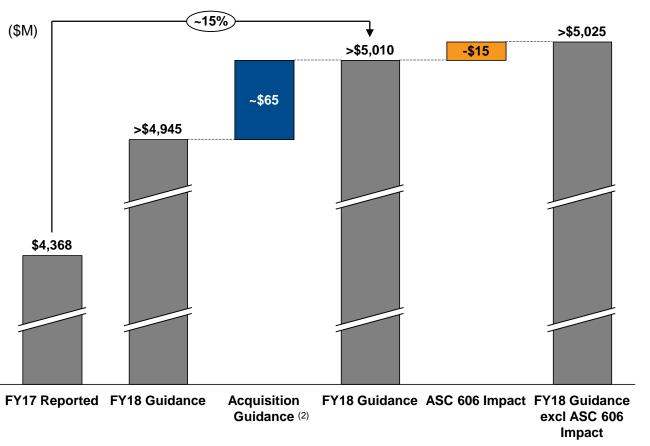

⁽²⁾ Represents a pre-tax one-time impact to retained earnings

Long-Term Lease Renewals

Average lease maturity greater than 19 years including extensions

Global Lease Portfolio Expiration Waterfall (1)

Equinix Owned Sites (2)

- Own 65 of 190 IBXs
- Purchased Helsinki 6, Milan 3 and Lisbon 1 and land in Sofia and Warsaw in Q4 2017
- 9.2M of 19.5M total gross square feet
- 42% of total recurring revenues, including Itconic

Limited Near-Term Lease Expirations

Only 0.1M square feet up for renewal prior to 2020

Over 87% of our recurring revenue⁽³⁾ is generated by either owned properties or properties where our lease expirations extend to 2029 and beyond

- (1) This lease expiration waterfall represents when leased square footage would be expired if we assume all available renewal options are exercised as of December 31, 2018. Square footage represents area in operation based on customer ready date
- (2) Owned assets defined as fee-simple ownership or owned building on long-term ground lease
- (3) Bit-isle revenues allocated based on square footage of facilities

NAREIT Funds From Operations (NAREIT FFO)

- We calculate Funds From Operations in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). NAREIT FFO represents net income (loss), excluding gains (or losses) from disposition of real estate property, impairment charges related to depreciable real estate fixed assets, plus real estate related depreciation and amortization expense and after adjustments for unconsolidated joint ventures, and non-controlling interests.

Adjusted Funds from Operations (AFFO)

- We calculate AFFO by adding to or subtracting from NAREIT FFO:
 - 1. Plus: Amortization of deferred financing costs
 - Plus: Stock-based compensation expense
 - Plus: Non-real estate depreciation, amortization and accretion expenses
 - 4. Less: Recurring capital expenditures
 - 5. Less/Plus: Straight line revenues/rent expense adjustments
 - 6. Less/Plus: Contract cost adjustment (1)
 - 7. Less/Plus: Gain/loss on debt extinguishment
 - 3. Plus: Restructuring charges and acquisition costs
 - 9. Less/Plus: Income tax expense adjustment
 - 10. Less/Plus: Adjustments from discontinued operations, unconsolidated JVs and non-controlling interests

Definitions: IBX Growth, REIT and Capex

IBX Growth

New IBXs: Phase 1 began operating after January 1, 2016

Expansion IBXs: Phase 1 began operating before January 1, 2016, and there is an expected expansion of one or more additional phases leveraging the existing capital infrastructure, or a new phase has opened for a

previously stabilized IBX after January 1, 2016

Stabilized IBXs: The final expansion phase began operating before January 1, 2016

Unconsolidated IBX: Excludes unconsolidated IBX JK1, Nimbo and non-IBXs

Telecity and Bit-isle IBXs are included in this analysis: Performance data prior to integration are best estimates and subject to future revision

REIT Disclosures

Adjusted NOI Composition: Adjusted NOI is calculated by taking recurring revenues, deducting recurring cash costs, adding back operating lease rent expense and deducting cash SG&A allocated to the properties. The impact of operating lease rent expense is removed to reflect an owned income stream. Total cash rent is provided in the components of NAV. Regional SG&A expense is allocated to the properties to reflect the full sales, marketing and operating costs of owning a portfolio of retail colocation properties. In addition, Corporate SG&A is provided to show centralized organization costs that are not property-related and, therefore, excluded from adjusted NOI.

Components of NAV: A detailed disclosure of applicable cash flows, assets and liabilities to support a Net Asset Value (NAV). Net asset valuation involves a market-based valuation of assets and liabilities to derive an intrinsic value of equity. Operating cash flows are separated into real estate income (adjusted NOI), non-recurring income and other operating income in order to facilitate discrete composition valuations. New properties and CIP generating unstabilized cash flows are reflected based on gross asset value. Other assets and liabilities include only tangible items with realizable economic value. Balance sheet assets and liabilities without tangible economic value (i.e. goodwill) are excluded. Liabilities excludes convertible debt as that obligation is assumed to be settled in shares and reflected in our share count. Other ongoing expenses including cash rent and cash tax expenses are disclosed to facilitate a market valuation of those liabilities. Share count is provided on a fully-dilutive basis including equity awards.

Capex

Recurring Capital Expenditures: To extend useful life of IBXs or other Equinix assets that are required to support current revenues

Sustaining IT & Network: Capital spending necessary to extend useful life of IT & Network infrastructure assets required to support existing products and business & operations services. This includes hardware & network gear as well as development enhancements that extend useful life to Equinix portal and other system assets

IBX Maintenance: Capital spending that extends useful life of existing IBX data center infrastructure; required to support existing operations

Re-Configuration Installation: Capital spending to support second generation configuration of customer installations; these expenditures extend useful life of existing assets or add new fixed assets. This includes changes to cage build-outs, cabinets, power, network gear and security component installations

Non-Recurring Capital Expenditures: Primarily for development and build-out of new IBX capacity (does not include acquisition costs). Also includes discretionary expenditures for expansions, transformations, incremental improvements to the operating portfolio (e.g. electrical, mechanical and building upgrades), IT systems, network gear or corporate offices which may expand the revenues base and increase efficiency by either adding new assets or extending useful life of existing assets

IBX Expansion: Capital spending to build-out new IBX data centers construction, data center expansion phases or increased capacity enhancements

Transform IT, Network & Offices: Capital spending related to discretionary IT, Network and Office transformation projects that primarily expand revenues or increase margins. This also includes Equinix office space remodeling expenditures that extend useful life or add new assets

Initial / Custom Installation: Capital spending to support first generation build-out for customer installations; this includes cage configuration, cabinet, power, network gear and security enhancements. This also includes custom installations and flex space installations which require new assets or extend useful life of assets
