MEDIA ALERT: Equinix to Speak at Gartner Catalyst Conference

Topics of discussion include "Empowering Enterprise Growth" and "Real World IT Transformation" with panelists from Microsoft, The Weather Channel and General Dynamics

REDWOOD CITY, Calif., Aug. 5, 2015 /PRNewswire/ -- Equinix, Inc. (Nasdaq: EQIX), the global interconnection and data center company, today announced that Sara Baack, chief marketing officer, and Tony Bishop, vice president, Enterprise, will be speaking at the Gartner Catalyst Conference 2015 taking place August 10-12, 2015 at the Manchester Grand Hyatt in San Diego, California.

"Empowering Enterprise Growth" – Monday, August 10 at 3:25pm PT in Grand Hall B

In this session, Tony Bishop will discuss how employees, partners and customers of today's enterprise are highly dependent on applications and data. This drives the need for a secure, global model that empowers enterprises to adapt to changes in real-time—in context with a myriad of devices, connections and content. Enterprises adopting these models have elevated their capabilities to connect to digital ecosystems that securely fuel high value and growth. Bishop will discuss these architectural considerations and the business value of such models.

"Real World IT Transformation" – Tuesday, August 11 at 10:05am PT in Seaport E

In this panel discussion, Sara Baack will discuss the challenges and opportunities facing enterprises as they look to deploy innovative, new IT architectures to address big data, hybrid cloud and the Internet of Things (IOT) in the Interconnected Era.

Panelists include:

- Landon Williams, vice president, Architecture & Platforms, The Weather Channel
- Scott Armstrong, senior director, Product Management/Marketing, and Strategic Initiatives, General Dynamics
- James Staten, general manager, chief strategist, Cloud & Enterprise, Microsoft

Additionally, Equinix is exhibiting in booth #401. To request a meeting, please email references@equinix.com.

Forward Looking Statements
This press release contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from expectations discussed in such forward-looking statements. Factors that might cause such differences include, but are not limited to, the challenges of acquiring, operating and constructing IBX centers and developing, deploying and delivering Equinix services; unanticipated costs or difficulties relating to the integration of companies we have acquired or will acquire into Equinix; a failure to receive significant revenue from customers in recently built out or acquired data centers; failure to complete any financing arrangements contemplated from time to time; competition from existing and new competitors; the ability to generate sufficient cash flow or otherwise obtain funds to repay new or outstanding indebtedness; the loss or decline in business from our key customers; and other risks described from time to time in Equinix's filings with the Securities and Exchange Commission. In particular, see Equinix's recent quarterly and annual reports filed with the Securities and Exchange Commission, copies of which are available upon request from Equinix. Equinix does not assume any obligation to update the forward-looking information contained in this press release.
