Equinix Announces Pricing of Public Offering of Common Stock

REDWOOD CITY, Calif., Nov. 18, 2015 /PRNewswire/ -- Equinix, Inc. (Nasdaq: EQIX), the global interconnection and data center company, today announced that it has priced an offering of 2,604,167 shares of its common stock (the "firm shares") at a price to the public of \$288.00 per share pursuant to an effective shelf registration statement (including a preliminary prospectus supplement and accompanying prospectus relating to the offering) on file with the Securities and Exchange Commission (the "SEC"). In addition, Equinix has granted the underwriters a 30-day option to purchase up to an additional 390,625 shares of its common stock (the "additional shares") at the public offering price, less underwriting discounts and commissions, and less an amount per share equal to any per share dividends that are paid or payable by Equinix on the firm shares but that are not payable on the additional shares. All of the shares of the common stock to be sold in the offering will be offered by Equinix. The offering is expected to close on November 24, 2015, subject to customary closing conditions.

Equinix expects the net proceeds from the common stock offering to be approximately \$721.2 million (or approximately \$829.5 million if the underwriters exercise their option to purchase additional shares in full). Equinix intends to use the net proceeds of the offering, together with the net proceeds of a proposed offering of senior unsecured notes in an aggregate principal amount of approximately \$1 billion, the net proceeds of a proposed senior secured term loan that it intends to seek in an aggregate principal amount of up to approximately \$700 million and cash on hand, for merger and acquisition activities and repayment of indebtedness (including the funding of the cash portion of the purchase price for the cash and share offer Equinix announced in May 2015 (the "Telecity Acquisition") for the entire issued and to be issued share capital of Telecity Group plc ("TelecityGroup") and repayment of existing TelecityGroup indebtedness in connection therewith) and for general corporate purposes. If for any reason the Telecity Acquisition is not completed, then Equinix intends to use all of the net proceeds from the offering for general corporate purposes. The completion of this common stock offering is not contingent upon the completion of the issuance of the proposed new notes, the proposed new term loan or the Telecity Acquisition.
