Equinix Announces Pricing of Public Offerings of \$1.9 Billion of Common Stock and \$1.25 Billion of Senior Notes

REDWOOD CITY, Calif., March 8, 2017 /PRNewswire/ -- Equinix, Inc. (Nasdaq: EQIX), the global interconnection and data center company, today announced the pricing of concurrent public offerings of 5,277,778 shares of its common stock at a price to the public of \$360.00 per share (the "Equity Offering") and \$1.25 billion in aggregate principal amount of its 5.375% Senior Notes due 2027 (the "Notes Offering"). In addition, Equinix has granted the underwriters of the Equity Offering a 30-day option to purchase up to an additional 791,666 shares of its common stock. The Equity Offering and the Notes Offering are separate public offerings made by means of separate prospectus supplements under Equinix's effective shelf registration statement and are not contingent on each other or upon the completion of the Acquisition discussed below. All of the shares of the common stock and notes to be sold in the offerings are offered by Equinix. The Equity Offering is expected to close on March 14, 2017 and the Notes Offering is expected to close on March 22, 2017, subject to customary closing conditions.

The notes will be Equinix's general senior obligations and will rank equal in right of payment to all of its existing and future senior indebtedness. Interest will be payable semi-annually at a rate of 5.375% per year. The notes will mature on May 15, 2027. The notes are redeemable by Equinix prior to maturity at a premium under certain circumstances.

Equinix expects the net proceeds from the Equity Offering to be approximately \$1.845 billion (or approximately \$2.122 billion if the underwriters exercise their option to purchase additional shares in full) and the net proceeds from the Notes Offering to be approximately \$1.236 billion, in each case, after deducting underwriting discounts and commissions and before estimated offering expenses. Equinix intends to use the net proceeds of the Equity Offering and the Notes Offering and existing term loan B borrowings of approximately \$1.053 billion to finance the previously announced proposed acquisition of the colocation services business of Verizon Communications Inc. at 24 data center sites in the United States, Brazil and Colombia (the "Acquisition") and related transaction fees and expenses and for general corporate purposes. However, if for any reason the Acquisition is not completed, then Equinix intends to use all of the net proceeds from the Equity Offering for general corporate purposes. In addition, if for any reason the Acquisition is not completed on or prior to December 6, 2017, or if, prior to such date, the transaction agreement relating to the Acquisition is terminated, then in either case Equinix will be required to redeem the notes at par.

J.P. Morgan, BofA Merrill Lynch, Goldman, Sachs & Co., RBC Capital Markets, Barclays and Citigroup are acting as joint book-running managers and ING, MUFG, TD Securities, HSBC, BTIG and Evercore ISI are acting as co-managers for the Equity Offering.
