

## Company Overview

Applied BioSciences is a vertically integrated company focused on the development and commercialization of novel, science-driven, synthetic cannabinoid therapeutics / biopharmaceuticals that target the endocannabinoid system to treat a wide-range of diseases across multiple therapeutic areas. We also deliver high-quality consumer and OTC THC-free CBD products that promote overall health and wellbeing as well as state-of-the-art testing and analytics capabilities to our customers.

Led by a team of seasoned and very successful entrepreneurs and executives with a broad range of experience in many diverse industries and functions, Applied BioSciences is well-positioned to be a leader in the endocannabinoid space.

In addition to driving the advancement of the Company's internal products and pipeline of endocannabinoid system targeting therapies, Applied BioSciences has several strategic partnerships in place and is actively pursuing additional partnerships and other strategic growth opportunities.
