Nauticus Robotics Announces Receipt of Stock Exchange Delisting Notification

The notification has no immediate effect on the listing or trading of Company common stock

HOUSTON, Oct. 23, 2025 /PRNewswire/ -- [Nauticus Robotics, Inc.](#) (NASDAQ: KITT, "Company"), a leading innovator in autonomous subsea robotics and software solutions, today announced receipt of a Nasdaq delisting notification.

On October 16, 2025, the Company received a written notice from The Nasdaq Stock Market LLC ("Nasdaq") stating that the Company was not in compliance with the requirement to maintain a minimum Market Value of Listed Securities ("MVLS") of \$35 million (the "Listing Requirement") as set forth in Nasdaq Listing Rule 5550(b)(2).

The Nasdaq notice has no immediate effect on the listing or trading of the Company's common stock. The Company intends to timely request a hearing before the Nasdaq Hearings Panel, which will automatically pause any suspension or delisting action pending the hearing. The Company's common stock will continue to trade on The Nasdaq Capital Market under the symbol "KITT" at this time.

The Company is evaluating available options to regain compliance, which may include corporate or market-based actions, including establishing compliance with alternative equity requirements under Nasdaq Listing Rule (5550(b)(1). The Company will monitor both its market value and stockholders' equity and is preparing a plan to regain compliance. The Company is confident it will continue to be listed.

[About Nauticus Robotics](#)

Nauticus Robotics, Inc. develops autonomous robots for the ocean industries. Autonomy requires the extensive use of sensors, artificial intelligence, and effective algorithms for perception and decision allowing the robot to adapt to changing environments. The company's business model includes using robotic systems for service, selling vehicles and components, and licensing of related software to both the commercial and defense business sectors. Nauticus has designed and is currently testing and certifying a new generation of vehicles to reduce operational cost and gather data to maintain and operate a wide variety of subsea infrastructure. Besides a standalone service offering and forward-facing products, Nauticus' approach to ocean robotics has also resulted in the development of a range of technology products for retrofit/upgrading traditional ROV operations and other third-party

vehicle platforms. Nauticus' services provide customers with the necessary data collection, analytics, and subsea manipulation capabilities to support and maintain assets while reducing their operational footprint, operating cost, and greenhouse gas emissions, to improve offshore health, safety, and environmental exposure. <https://nauticusrobotics.com/>

Cautionary Language Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Act"), and are intended to enjoy the protection of the safe harbor for forward-looking statements provided by the Act as well as protections afforded by other federal securities laws. Such forward-looking statements include but are not limited to: the expected timing of product commercialization or new product releases; customer interest in Nauticus' products; estimated operating results and use of cash; and Nauticus' use of and needs for capital. Generally, statements that are not historical facts, including statements concerning possible or assumed future actions, business strategies, events, or results of operations, are forward-looking statements. These statements may be preceded by, followed by, or include the words "believes," "estimates," "expects," "projects," "forecasts," "may," "will," "should," "seeks," "plans," "scheduled," "anticipates," "intends," or "continue" or similar expressions.
