Sonoma Pharmaceuticals Regains Compliance with Nasdaq® Minimum Bid Price Rule

PETALUMA, Calif., July 12, 2019 (GLOBE NEWSWIRE) -- Sonoma Pharmaceuticals, Inc. (Nasdaq: SNOA), a specialty pharmaceutical company dedicated to identifying, developing and commercializing unique, differentiated therapies to millions of patients living with chronic skin conditions, today announced that it received a formal determination letter from Nasdaq notifying the company that it is now compliant with the minimum bid price requirement for continued listing on the Nasdaq Capital Market® and is no longer subject to delisting at this time.

As announced previously, on January 4, 2019, Sonoma received a letter from Nasdaq, indicating that it did not comply with the \$1.00 minimum closing bid price requirement for its common stock for continued listing on the Nasdaq Capital Market. Nasdaq granted the company a compliance period of 180 calendar days, or until July 3, 2019, to regain compliance with the listing rule. Effective with the opening of the market on June 20, 2019, the company implemented a 1-for-9 reverse stock split. The closing bid price of the company's common stock exceeded the required \$1.00 per share minimum over the subsequent 10 business days. Accordingly the company has regained compliance and the matter is now closed.

About Sonoma Pharmaceuticals, Inc.

Sonoma Pharmaceuticals is a specialty pharmaceutical company dedicated to identifying, developing and commercializing unique, differentiated therapies to millions of patients living with chronic skin conditions. Sonoma offers early-intervention relief with virtually no side-effects or contraindications. The company believes its products, which are sold throughout the United States and internationally, have improved patient outcomes for more than six million patients by treating and reducing certain skin diseases including acne, atopic dermatitis, scarring, infections, itch, pain and harmful inflammatory responses. Sonoma's vision is to be a catalyst for improved care and increased access for all patients. The company's headquarters are in Petaluma, California, with manufacturing operations in the United States and Latin America. European marketing and sales are headquartered in Roermond, Netherlands.
