OPERATING PERFORMANCE

"We started the year with strong momentum with period-end occupancy reaching a new record, strong leasing volume and healthy rent increases," said Luis Gutierrez, CEO, Prologis Property Mexico. "The resiliency of the structural drivers underpinning logistics real estate demand, such as demographics and undersupply of institutional-grade logistic spaces in Mexico, have been more visible over the last twelve months than ever before. E-commerce customers are starting to become a rising contributor of the demand profile going forward."

As of March 31, 2017, FIBRA Prologis' liquidity was Ps. 6.2 billion (US\$331.8 million), which included Ps. 5.9 billion (US\$316.8 million) of available capacity on its unsecured credit facility and Ps. 281.1 million (US\$15.0 million) of unrestricted cash.

"Repaying the secured debt facility was the first milestone in our 2017 refinancing strategy," said Jorge Girault, senior vice president, Finance, Prologis Mexico. "We are actively working to address the near-term financing and resetting the line of credit with a permanent facility. We plan to further increase the flexibility of our balance sheet, risk profile and reduce overall cost of debt."
