

Profire Energy Reports Financial Results for Fiscal Year 2016

In the 2016 Transition Period Profire Recognized Quarter-over-Quarter Revenue Growth of 41%

LINDON, Utah, March 09, 2017 (GLOBE NEWSWIRE) -- Profire Energy, Inc. (NASDAQ:PFIE), a technology company which creates, installs and services burner and chemical management solutions in the oil and gas industry, today reported financial results for the nine-month transition period ended December 31, 2016. A conference call will be held on Friday, March 10, 2017 at 1:00 p.m. EST to discuss the results.

As previously communicated, due to a change in the Company's fiscal year-end, the Company filed a transition report on Form 10-K covering the transition period from April 1, 2016 to December 31, 2016, which is the period between the closing of the Company's most recent fiscal year and the opening date of the newly selected fiscal year. The results from the quarter ended December 31, 2016 are reflected in the nine-month period covered by the transition report.

Transition Period Highlights

- Revenues Increased 41% Quarter-Over-Quarter
- Generated Positive Cash Flows in Each Quarter of the Transition Period
- Cash and liquid investments at period-end totaled \$20 million
- · Remained debt-free

Transition Period Financial Results

In the final quarter of the transition period total revenues increased to just over \$7 million, which was an increase of 41% as compared to the previous quarter. This was achieved while keeping operating costs under control, which only increased 5% over the same comparable period.

Net income for the transition period was approximately \$78,000 or \$0.00 per diluted share, compared to a net income of \$799,000 or \$0.01 per diluted share in the comparable nine-month period of 2015. Net income in the final quarter of the transition period was \$609,000 or \$0.01 per diluted share as compared to \$75,000 or \$0.00 per diluted share in the previous quarter. The net loss in the first quarter of the transition period was \$605,000 or a loss of \$0.01 per diluted share. In the transition period the Company's net income increased from -15% of total revenue in the first quarter to 9% of total revenue in the last quarter of the period.

At the end of the transition period cash and cash equivalents totaled \$9.3 million, as compared to \$21.3 million at the end of the fiscal year ended March 31, 2016. The Company has invested \$11 million in low risk, CD's, bonds and mutual funds. Without these investments, the Company's cash position would have been \$20 million, despite having repurchased \$3.6 million in Profire stock during the transition period.

Management Commentary

"We continue to strategically allocate capital according to the plan we have previously communicated," stated Ryan Oviatt, CFO of Profire. "We remain focused on the preservation of cash, seeking opportunities to acquire adjacent technologies, conducting our stock repurchase program, and other value creation activities that may be identified from time to time. We believe this plan will continue to drive long-term value for Profire and our shareholders."

"The stabilization of oil prices has had a positive effect on our Company as our customers appear to have gained confidence in the oil markets and have returned to spending their capex budgets," said Brenton Hatch, President and CEO of Profire Energy. "The oil industry is still recovering and while we don't know how oil prices will react throughout our next fiscal year, many analysts believe oil prices will average in the mid \$50's price range. We remain optimistic that the stabilization of commodity prices will allow us to maintain the growth we have achieved

in the final two quarters of the period."

Conference Call

Profire Energy President and CEO Brenton Hatch and CFO Ryan Oviatt will host the teleconference. Following the teleconference, they will be joined by Cameron Tibdall, VP of Sales and Marketing, for a question and answer period.
