Lexaria Bioscience Engages Integra Consulting Group to Provide Investor Relations Services

KELOWNA, BC / ACCESSWIRE / August 2, 2019 / Lexaria Bioscience Corp. (CNSX:LXX) (OTCQX:LXRP) (“**Lexaria**” or the “**Company**”) announces it has retained Integra Consulting Group LLC (“**Integra**”) to provide investor relations services to the Company in compliance with regulatory guidelines.

Integra partners with select underexposed and undervalued emerging growth company and leverages decades of market experience with a robust proprietary database to continuously maximize market visibility throughout their clients’ different development cycles.

Integra will work with the Company to provide outreach to communicate the Company’s message to maximize corporate visibility; will seek out opportunities to deliver audience-targeted presentations and will utilize the far-reaching capabilities of web-casting to reach bigger audiences. Integra has worked with multiple companies to assist with the transition from an OTC listing to a major national exchange and has the required experience to help prepare for such transitions.

Integra is being engaged for an initial six-month contract and will receive US\$12,500 per month and a total of 150,000 restricted common shares of the Company.

About Lexaria

Lexaria Bioscience Corp. has developed and out-licenses its disruptive delivery technology that promotes healthier ingestion methods, lower overall dosing and higher effectiveness of lipophilic active molecules. Lexaria has multiple patents pending in over 40 countries around the world and has patents granted in the USA and in Australia for utilization of its DehydraTECH™ delivery technology. Lexaria’s technology provides increases in intestinal absorption rates; more rapid delivery to the bloodstream; and important taste-masking benefits, for orally administered bioactive molecules including cannabinoids, vitamins, non-steroidal anti-inflammatory drugs (NSAIDs), nicotine and other molecules.

FORWARD-LOOKING STATEMENTS

This release includes forward-looking statements. Statements which are not historical facts are forward-looking statements. The Company makes forward-looking public statements concerning its expected future financial position, results of operations, cash flows, financing plans, business strategy, products and services, competitive positions, growth opportunities, plans and objectives of management for future operations, including statements that include words such as "anticipate," "if," "believe," "plan," "estimate," "expect," "intend," "may," "could," "should," "will," and other similar expressions are forward-looking statements, including but not limited to: that any additional stock warrants or stock options will be exercised. Such forward-looking statements are estimates reflecting the Company's best judgment based upon current information and involve a number of risks and uncertainties, and there can be no assurance that other factors will not affect the accuracy of such forward-looking statements. Factors which could cause actual results to differ materially from those estimated by the Company include, but are not limited to, government regulation, managing and maintaining growth, the effect of adverse publicity, litigation, competition, the patent application and approval process and other factors which may be identified from time to time in the Company's public announcements and filings. There is no assurance that existing capital is sufficient for the Company's needs or that it will be able to raise additional capital. There is no assurance that Lexaria will successfully complete any other contemplated or existing technology license agreements; or that results from any studies will be favorable or in any way support future business activities of any kind. Scientific R&D is often unpredictable and unanticipated results could emerge from any study and have a material impact. There is no assurance that any planned corporate activity, scientific study, R&D, business venture, or initiative will be pursued, or if pursued, will be successful. There is no assurance that any of Lexaria's postulated uses, benefits, or advantages for the patented and patent-pending technology will in fact be realized in any manner or in any part. No statement herein has been evaluated by the Food and Drug Administration (FDA). TurboCBD™, DehydraTECH™ technology and ViPova™ products are not intended to diagnose, treat, cure or prevent any disease.

The CSE has not reviewed and does not accept responsibility for the adequacy or accuracy of this release.
