Updated 2014 Guidance

Forward guidance excludes the impact of expenses (primarily for legal and advisory services) relating to the company's response to information put into the marketplace by a short seller, which the company believes to be inaccurate and misleading, expenses related to a FTC inquiry, and the impact of non-cash interest costs associated with the company's Convertible Notes and the expenses incurred related to the effort to recover costs related to the reaudit that occurred last year. Forward guidance is based on the average daily exchange rates of the first two weeks of July. Included in the guidance is the use of the GAAP rate for Venezuela of 10.6 to 1 for the balance of the year and excludes the potential impact of future devaluation of the Venezuelan bolivar and future repatriation, if any, of existing cash balances in Venezuela.

The following is a reconciliation of net income, presented and reported in accordance with U.S. generally accepted accounting principles, to net income adjusted for certain items:

(1) Based on interim income tax reporting rules, these expenses are not considered discrete items. As a result, the Company's full year effective tax rate is impacted by these items. When applying the full year effective tax rate to year-to-date income, the Company's year-to-date tax provision recorded with respect to these non-GAAP adjustments is different from the forecasted full-year tax provision impact of these items. As a consequence, adjustments to the year-to-date and quarterly tax impacts will be recorded as the adjusted full year effective tax rate is applied to income in subsequent periods. Additionally, adjustments to items unrelated to these non-GAAP adjustments may have an effect on the income tax impact of these non-GAAP adjustments in subsequent periods. The Company plans to update the income tax impact of these items in subsequent interim reporting periods.

(2) Net of (\$2,349) and \$2,217 tax benefit for the three months ended June 30, 2014 and 2013, respectively; and net of \$20,318 and \$6,808 tax benefit for the six months ended June 30, 2014 and 2013, respectively.
