TTM Technologies, Inc. to Exhibit at International Printed Circuit & APEX South China Fair in Shenzhen, China

COSTA MESA, Calif., Nov. 07, 2017 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (Nasdaq:TTMI), a global leader in printed circuit board (PCB) manufacturing, will be exhibiting at the annual International Printed Circuit & APEX South China Fair (2017 HKPCA & IPC Show) at Booth 1L01. Themed "Global Wisdom Local Presence", the Fair runs from December 6-8 and will be held at the Shenzhen Convention & Exhibition Center, China. TTM's Sales and Technical Experts are available for product and technical on-site discussions throughout the event.

"We always anticipate this annual PCB event in Asia as it has been a good platform for us to connect with local industry peers and customers," said Kent Hardwick, TTM's Senior Vice President of Sales. "As a technology leader, TTM is focused on helping our customers to keep up with the needs of the fast-changing electronics industry by providing them with the best solutions in the market."

About International Printed Circuit & APEX South China Fair (HKPCA & IPC Show)

Since it was first staged in 2002, the Fair, jointly organized by the Hong Kong Printed Circuit Association (HKPCA), Association Connecting Electronics Industries (IPC), and the China Council for the Promotion of International Trade Guangzhou Sub-council (CCPIT-GZ), has grown year by year and evolved from a modest regional event into the PCB industry's premier international platform for networking, information exchange, education, and keeping up with market trends and the latest innovations. Additional information can be found at www.hkpca-ipc-show.org.

About TTM Technologies, Inc.

TTM Technologies, Inc. is a leading global printed circuit board ("PCB") manufacturer, focusing on quick-turn and volume production of technologically advanced PCBs, flex and rigid flex PCBs, backplane assemblies and electro-mechanical solutions. TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market. Additional information can be found at www.ttm.com.
