# Amesite Announces V6.3, with Streamlined, AI-First Infrastructure to Enable Customization and Scale for Its Enterprise Customers

DETROIT, June 28, 2023 (GLOBE NEWSWIRE) -- Amesite Inc. (NASDAQ: AMST), a leading artificial intelligence software company offering a cloud-based learning platform for education, business, and government markets, announces today that V6.3 will be available to its Customers on July 10, 2023.

"We are thrilled to announce the roll out of our latest update – V6.3 – utilizing a streamlined, AI-first infrastructure. Our enterprise customers are in a phase of rapid expansion, and they need reliable solutions that support their growth," said Amesite Founder & CEO, Dr. Ann Marie Sastry. "Our AI-driven platform features can now be delivered with even greater scalability and affordability, along with greater degrees of customization, to meet our Customers' needs."

By [implementing Azure's cloud solutions](#), Amesite has enhanced its platform's efficiency and ensured secure authentication with Azure AD B2C. The incorporation of Azure's latest database technology enables Amesite to deliver services faster and improve user experiences. The centralization of Amesite's innovation deployments allows rapid access to new features such as games and other AI offerings. This significant update reaffirms Amesite's dedication to addressing our customers' ever-evolving needs and delivering an unrivaled user experience.

Amesite's V6.3 includes upgraded cybersecurity with centralized security measures and updates to fortify protection against cyber threats. Enhanced visibility achieved through centralized monitoring allows proactive identification of vulnerabilities, paired with the ability to rapidly deploy security patches across all tenants. In addition, Amesite's scalable customer support facilitates frictionless resource allocation to manage Customer inquiries and onboarding efficiently. Amesite is committed to best-in-class cybersecurity and has created a free cybersecurity white paper available for download by the public [here](#).

By partnering with Amesite, organizations can navigate the complexity of infrastructure configurations and leverage its seamless integration with popular identity solutions, databases, storage systems, and AI tools. Possible infrastructure configurations can easily number into the thousands with only a few selections of formats and tools, so customizability is essential. As a Consulting Partner, Amesite helps its Customers execute a well-thought-out strategy to integrate learning solutions effectively. A detailed breakdown can be accessed [here](#) and a free integration white paper is available for download by the public [here](#).

## **Forward Looking Statements**

This communication contains forward-looking statements (including within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended) concerning the Company, the Company's planned online machine learning platform, the Company's business plans, any future commercialization of the Company's online learning solutions, potential customers, business objectives and other matters. Forward-looking statements generally include statements that are predictive in nature and depend upon or refer to future events or conditions, and include words such as "may," "will," "should," "would," "expect," "plan," "believe," "intend," "look forward," and other similar expressions among others. Statements that are not historical facts are forward-looking statements. Forward-looking statements are based on current beliefs and assumptions that are subject to risks and uncertainties and are not guarantees of future performance. Actual results could differ materially from those contained in any forward-looking statement. Risks facing the Company and its planned platform are set forth in the Company's filings with the SEC. Except as required by applicable law, the Company undertakes no obligation to revise or update any forward-looking statement, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise.
