

Amesite Announces Dramatic Increase in NurseMagic™ Users, Representing All 50 States and 6 Nations, Using App for Wide Variety of Applications

NurseMagic™ Usage Ramping Quickly, with Nursing Professionals Accessing the App Multiple Times Per Week on Tasks Ranging from Documentation to Patient Care

DETROIT, July 29, 2024 (GLOBE NEWSWIRE) -- Amesite Inc. (NASDAQ: AMST), a leading artificial intelligence software company offering a cloud-based learning platform for business and education markets, announced substantial growth in the user base of its app, NurseMagic™, across all fifty (50) U.S. states and six (6) nations, within only eight (8) weeks of its [public launch](#) on June 5, following a period of availability as a gated beta product. NurseMagic™ is now delivering all key types of [documentation, training and learning](#) and support for patient communication, including translation services. Users now represent at least 27 different nursing and healthcare-related professions, including RNs, LPNs, NPs, APRN-CNPs, EMTs, CNAs, medical technicians, imaging technologists and nursing students. Key growth and usage statistics follow:

- NurseMagic™ users hail from all 50 U.S. states and 6 nations.
- NurseMagic™ 830% user growth month on month, from June to July 2024 since exiting its beta and [launching availability to the public](#).
- NurseMagic™ users are utilizing the app for assistance in creating a wide variety of required reports, ranging from narrative and SOAP notes for progress and shift updates, behavioral and home health use cases such as detailed patient assessments and individualized care plans, to incident reports and admission records.
- NurseMagic™ users enter queries both by voice and text, with many users accessing the app multiple times per week.
- Significant proportion of NurseMagic™ users employ translation services native on the app to communicate with patients, including explaining medical procedures.
- NurseMagic™ users are creating folders on the app, a feature designed to enable nurses and nursing students to store key documents and study materials.
- NurseMagic™ users are using on-board materials on the app, including nursing ethics documentation, to quiz themselves on requirements of their profession.

NurseMagic™ was designed to be an essential tool for the 5.2 Million nurses in the U.S. User data now validate a broader appeal to the product – professionals and students currently benefitting and actively using the app are in sectors that collectively number over

12.3 Million professionals. The market for AI in healthcare is expected to grow to over \$187 Billion by 2030.

Influencers engaged by Amesite to communicate the availability and features of NurseMagic™ tout its ability to perform common tasks, including documentation that consumes about 40% of nurses' time. NurseMagic™'s proprietary technology has [demonstrated 93% accuracy when tested on prep questions for the NCLEX](#) the exam that must be passed by nurses in the U.S. and Canada in order to be licensed.

Paige Slayton, a nurse influencer engaged by Amesite, with over 900,000 followers, said, "I am thrilled to message the availability of NurseMagic™. The app literally cuts the work that nurses have to do during a shift by over a third. NurseMagic™ is the answer to reducing stress for my audience."

Madison Bush, Corporate Operations Manager for Amesite, said, ["We are seeing incredible traction with our messaging in the nursing community"](#), and are 100% committed to providing nurses with the support they need. We are grateful to the nursing colleagues who have joined the team and are helping us to both constantly improve the app and communicate its utility."

Sai Nittala, Senior AI Manager at Amesite, said, "We obsessively focus on app quality and have been delighted to find that its applicability is even broader professionally and geographically than we had anticipated. We sincerely appreciate the trust that we are building with this community, which is helping us improve the product every day."

CEO Dr. Ann Marie Sastry said, "The queries we are seeing from around the U.S. and globe show just how much nursing professionals do for society. Their challenges are at times heartbreaking, eye-opening, and most of all, inspiring. From communicating with people with serious diagnoses in other languages, to explaining medical procedures, to getting a jumpstart on essential documentation, we believe that the app is becoming an essential tool for these professionals."
