This presentation contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Tanger Inc. (the “Company”) intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with the safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe the Company’s future plans, strategies and expectations, are generally identifiable by use of the words “believe,” “expect,” “intend,” “anticipate,” “estimate,” “project,” “will,” “forecast” or similar expressions, and include the Company’s expectations regarding future financial results and assumptions underlying that guidance, long-term growth, trends in retail traffic and tenant revenues, development initiatives and strategic partnerships, the anticipated impact of the Company’s newly acquired assets in Huntsville and Asheville, as well as its newly opened Nashville development and related costs and anticipated yield, expectations regarding operational metrics, renewal trends, new revenue streams, its strategy and value proposition to retailers, uses of and efforts to reduce costs of capital, liquidity, dividend payments and cash flows. You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other important factors which are, in some cases, beyond our control and which could materially affect our actual results, performance or achievements. Important factors which may cause actual results to differ materially from current expectations include, but are not limited to: our inability to develop new retail centers or expand existing retail centers successfully; risks related to the economic performance and market value of our retail centers; the relative illiquidity of real property investments; impairment charges affecting our properties; our dispositions of assets may not achieve anticipated results; competition for the acquisition and development of retail centers, including outlet centers, and our inability to complete the acquisitions of retail centers we may identify; competition for tenants with competing retail centers; the diversification of our tenant mix and our entry into the operation of full price retail may not achieve our expected results; environmental regulations affecting our business; risks associated with possible terrorist activity or other acts or threats of violence and threats to public safety; risks related to the impact of macroeconomic conditions, including rising interest rates and inflation, on our tenants and on our business, financial condition, liquidity, results of operations and compliance with debt covenants; our dependence on rental income from real property; our dependence on the results of operations of our retailers and their bankruptcy, early termination or closing could adversely affect us; the fact that certain of our properties are subject to ownership interests held by third parties, whose interests may conflict with ours; risks related to climate change; increased costs and reputational harm associated with the increased focus on environmental, sustainability and social initiatives; risks related to uninsured losses; the risk that consumer, travel, shopping and spending habits may change; risks associated with our Canadian investments; risks associated with attracting and retaining key personnel; risks associated with debt financing; risks associated with our guarantees of debt for, or other support we may provide to, joint venture properties; the effectiveness of our interest rate hedging arrangements; interest rate risk uncertainty relating to the phase-out of LIBOR; our potential failure to qualify as a REIT; our legal obligation to make distributions to our shareholders; legislative or regulatory actions that could adversely affect our shareholders, including the recent changes in the U.S. federal income taxation of U.S. businesses; our dependence on distributions from the Operating Partnership to meet our financial obligations, including dividends; the risk of a cyber-attack or an act of cyber-terrorism and other important factors set forth under Item 1A – “Risk Factors” in the Company’s and the Operating Partnership’s Annual Report on Form 10-K for the year ended December 31, 2022, as may be updated or supplemented in the Company’s Quarterly Reports on Form 10-Q and the Company’s other filings with the Securities and Exchange Commission (“SEC”). Accordingly, there is no assurance that the Company’s expectations will be realized. The Company disclaims any intention or obligation to update the forward-looking statements, whether as a result of new information, future events or otherwise. You are advised to refer to any further disclosures the Company makes or related subjects in the Company’s Current Reports on Form 8-K that the Company files with the SEC.

We use certain non-GAAP supplemental measures in this presentation, including Funds From Operations (“FFO”), Core Funds From Operations (“Core FFO”), same center net operating income (“Same Center NOI”), portfolio net operating income (“Portfolio NOI”), Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate (“Adjusted EBITDAR”) and Net Debt. Strong & Dynamic Tenant Mix

“Tanger is a great partner. They value long-term relationships and they make it their business to understand our needs and how best to serve the consumer.”

Todd Kahn, Tapestry President

“HUGO BOSS is excited to be able to increase its presence in the Tanger portfolio. Under the direction of Stephen Yalof, HUGO BOSS has seen an increased focus on the premium and luxury segment and in projects that HUGO BOSS has launched in the past few months. The communication and follow through from the Tanger team has been excellent. They have been quick to respond, troubleshoot and address the changing needs of our business.”

Stephan Born, Hugo Boss Americas CEO

As of September 30, 2023 for consolidated outlet centers and pro rata share of unconsolidated joint ventures, net of renewals executed
Core Strategies
Leasing

Drive Rents
Diversify the Assortment
Increase Occupancy

- Driving rents with higher rent spreads, strong renewal rates, shifting variable rent to fixed and converting temp tenants to permanent
- Introducing non-retail uses including food, entertainment, experiential and digitally native concepts
- Focusing on opportunities to attract new visitors, increase visit frequency and extend dwell time
- Pursuing opportunities to activate peripheral land
Operations

Drive Operational Efficiencies
Grow Ancillary Revenue
Expand ESG Initiatives
Maximize Asset Value

- Decentralized to empower field managers to drive the performance of their asset
- Participating in revenue generation
  - Focus on business development opportunities, including sponsorships and paid media
  - Local leasing focused on iconic local brands
  - Marketing strategies customized to each asset
- Generating operating expense efficiencies without impacting the shopper experience
- Maximizing center value through redevelopments, renovations and expansions
THIRD QUARTER 2023

Refer to Non-GAAP Definitions beginning at page 45 for definitions of the non-GAAP supplemental measures used in this report.
Funds From Operations ("FFO") is a widely used measure of the operating performance for real estate companies that supplements net income (loss) determined in accordance with generally accepted accounting principles in the United States ("GAAP"). We determine FFO based on the definition set forth by the National Association of Real Estate Investment Trusts ("NAREIT"), of which we are a member. In December 2018, NAREIT issued "NAREIT Funds From Operations White Paper - 2018 Restatement" which clarifies, where necessary, existing guidance and consolidates alerts and policy bulletins into a single document for ease of use. NAREIT defines FFO as net income (loss) available to the Company’s common shareholders computed in accordance with GAAP, excluding (i) depreciation and amortization related to real estate, (ii) gains or losses from sales of certain real estate assets, (iii) gains and losses from change in control, (iv) impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity and (v) after adjustments for unconsolidated partnerships and joint ventures calculated to reflect FFO on the same basis.

FFO is intended to exclude historical cost depreciation of real estate as required by GAAP which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization of real estate assets, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income (loss).

We present FFO because we consider it an important supplemental measure of our operating performance. In addition, a portion of cash bonus compensation to certain members of management is based on our FFO or Core FFO, which is described in the section below. We believe it is useful for investors to have enhanced transparency into how we evaluate our performance and that of our management. In addition, FFO is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is also widely used by us and others in our industry to evaluate and price potential acquisition candidates. We believe that FFO payout ratio, which represents regular distributions to common shareholders and unit holders of the Operating Partnership expressed as a percentage of FFO, is useful to investors because it facilitates the comparison of dividend coverage between REITs. NAREIT has encouraged its member companies to report their FFO as a supplemental, industry-wide standard measure of REIT operating performance.

FFO has significant limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- FFO does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
- FFO does not reflect changes in, or cash requirements for, our working capital needs;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and FFO does not reflect any cash requirements for such replacements; and
- Other companies in our industry may calculate FFO differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, FFO should not be considered as a measure of discretionary cash available to us to invest in the growth of our business or our dividend paying capacity. We compensate for these limitations by relying primarily on our GAAP results and using FFO only as a supplemental measure.
Core FFO
If applicable, we present Core FFO as a supplemental measure of our performance. We define Core FFO as FFO further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance. These further adjustments are itemized in the table above, if applicable. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Core FFO you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Core FFO should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

We present Core FFO because we believe it assists investors and analysts in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. In addition, we believe it is useful for investors to have enhanced transparency into how we evaluate management’s performance and the effectiveness of our business strategies. We use Core FFO when certain material, unplanned transactions occur as a factor in evaluating management’s performance and to evaluate the effectiveness of our business strategies, and may use Core FFO when determining incentive compensation.

Core FFO has limitations as an analytical tool. Some of these limitations are:
- Core FFO does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
- Core FFO does not reflect changes in, or cash requirements for, our working capital needs;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Core FFO does not reflect any cash requirements for such replacements;
- Core FFO does not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations; and
- Other companies in our industry may calculate Core FFO differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Core FFO should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using Core FFO only as a supplemental measure.

Portfolio Net Operating Income and Same Center Net Operating Income
We present portfolio net operating income ("Portfolio NOI") and same center net operating income ("Same Center NOI") as supplemental measures of our operating performance. Portfolio NOI represents our property level net operating income which is defined as total operating revenues less property operating expenses and excludes termination fees and non-cash adjustments including straight-line rent, net above and below market rent amortization, impairment charges, loss on early extinguishment of debt and gains or losses on the sale of assets recognized during the periods presented. We define Same Center NOI as Portfolio NOI for the properties that were operational for the entire portion of both comparable reporting periods and which were not acquired, or subject to a material expansion or non-recurring event, such as a natural disaster, during the comparable reporting periods. We present Portfolio NOI and Same Center NOI on both a consolidated and total portfolio, including pro rata share of unconsolidated joint ventures, basis.

We believe Portfolio NOI and Same Center NOI are non-GAAP metrics used by industry analysts, investors and management to measure the operating performance of our properties because they provide performance measures directly related to the
revenues and expenses involved in owning and operating real estate assets and provide a perspective not immediately apparent from net income (loss), FFO or Core FFO. Because Same Center NOI excludes properties developed, redeveloped, acquired and sold, as well as non-cash adjustments, gains or losses on the sale of outparcels and termination rents; it highlights operating trends such as occupancy levels, rental rates and operating costs on properties that were operational for both comparable periods. Other REITs may use different methodologies for calculating Portfolio NOI and Same Center NOI, and accordingly, our Portfolio NOI and Same Center NOI may not be comparable to other REITs.

Portfolio NOI and Same Center NOI should not be considered alternatives to net income (loss) or as an indicator of our financial performance since they do not reflect the entire operations of our portfolio, nor do they reflect the impact of general and administrative expenses, acquisition-related expenses, interest expense, depreciation and amortization costs, other non-property income and losses, the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, or trends in development and construction activities which are significant economic costs and activities that could materially impact our results from operations. Because of these limitations, Portfolio NOI and Same Center NOI should not be viewed in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using Portfolio NOI and Same Center NOI only as supplemental measures.

**EBITDAre and Adjusted EBITDAre**

We present Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate ("EBITDAre") and Adjusted EBITDAre, both non-GAAP measures, as supplemental measures of our operating performance. Each of these measures is defined as follows:

We determine EBITDAre based on the definition set forth by NAREIT, which is defined as net income (loss) computed in accordance with GAAP before net interest expense, income taxes (if applicable), depreciation and amortization, gains and losses on sale of operating properties, gains and losses on change of control and impairment write-downs of depreciated property and of investment in unconsolidated joint ventures caused by a decrease in value of depreciated property in the affiliate and after adjustments to reflect our share of the EBITDAre of unconsolidated joint ventures.

Adjusted EBITDAre is defined as EBITDAre excluding gains and losses on extinguishment of debt and other items that may affect operations; and

Other companies in our industry may calculate these measures differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, EBITDAre and Adjusted EBITDAre should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using EBITDAre and Adjusted EBITDAre only as supplemental measures.

**Net Debt**

We define Net Debt as Total Debt less Cash and Cash Equivalents and Short-Term Investments and present this metric for both the consolidated portfolio and for the total portfolio, including the consolidated portfolio and the Company’s pro rata share of unconsolidated joint ventures. Net debt is a component of the Net debt to Adjusted EBITDAre ratio, which is defined as Net debt for the total portfolio at pro rata share divided by Adjusted EBITDAre.

We use the Net debt to Adjusted EBITDAre ratio to evaluate the Company’s leverage. We believe this measure is an important indicator of the Company’s ability to service its long-term debt obligations.
Notes and Additional Information
Pro forma as of November 29, 2023; includes Tanger’s pro rata share of unconsolidated joint ventures. Pro forma market capitalization is calculated as total shares as of September 30, 2023 adjusted for 2.3 million shares issued under Tanger’s at-the-market (ATM) equity program during the fourth quarter of 2023 multiplied by the common share closing price as of November 29, 2023 of $24.82. Pro forma total enterprise value is calculated as pro forma market capitalization as calculated above plus net debt as of September 30, 2023 adjusted for $263.5 million spent to fund the recent acquisitions of Tanger Asheville and Bridge Street Town Centre less $57.5 million raised under the ATM during the fourth quarter of 2023.

Metropolitan Statistical Area as defined by the U.S. Census Bureau; includes Ottawa, ON center located in a top 5 census metropolitan area as defined by Statistics Canada.

As of September 30, 2023
For the twelve months ended September 30, 2023
Comparable space excludes leases for space vacant for > 12 months
Presented for the domestic portfolio
For nine months ended September 30, 2023
For the trailing twelve-month period
Number of leases is presented at 100%
Represents annualized occupancy costs as of September 30, 2023 as a percentage of tenant sales for the trailing twelve-month period ended September 30, 2023 for consolidated properties and Tanger’s pro rata share of unconsolidated joint ventures.
Includes comparable space leases (which exclude leases for space that was vacant for more than 12 months) for the consolidated portfolio and domestic unconsolidated joint ventures at pro rata share; excludes leases executed under license agreements, seasonal tenants, month-to-month leases and new developments.

Outstanding debt including pro rata share of unconsolidated joint ventures; excludes debt discounts, premiums and origination costs
Includes short-term investments

Assumes all extension options are exercised; although some mortgage debt is amortizing, outstanding balance is shown in the month of final maturity
Excludes debt discounts, premiums, and origination costs
Includes pro rata share of debt maturities related to unconsolidated joint ventures
Debt maturities may not sum to total principal debt due to the effect of rounding
Weighted average; includes the impact of discounts and premiums and interest rate swaps, as applicable
Weighted average; includes applicable extensions available at the Company’s option
