# Cautionary Notice Regarding Forward-Looking Statements

This presentation contains forward-looking statements by Crown Crafts, Inc. (the "Company") within the meaning of the Securities Act of 1933, the Securities Exchange Act of 1934, the Private Securities Litigation Reform Act of 1995, and all Rules and Regulations issued thereto. Such statements are based upon management's current expectations, projections, estimates and assumptions. Words such as "expects," "believes," "anticipates" and variations of such words and similar expressions identify such forwardlooking statements. Forward-looking statements involve known and unknown risks and uncertainties that may cause future results to differ materially from those suggested by the forward-looking statements. These risks include, but are not limited to, general economic conditions, including changes in interest rates, the overall level of consumer spending and the price of oil, cotton and other raw materials used in the Company's products, changing competition, changes in federal and state governmental regulations with respect to the consumer products industry, changes in the retail environment, the level and pricing of future orders from the Company's customers, the Company's dependence upon third-party suppliers, including some located in foreign countries with unstable political climates, the Company's ability to successfully implement new information technologies, customer acceptance of both new designs and newly-introduced product lines, actions of competitors that may impact the Company's business, disruptions to transportation systems or shipping lanes used by the Company or its suppliers, and the Company's dependence upon licenses from third parties. Reference is also made to the Company's periodic filings with the Securities and Exchange Commission for additional risk factors that may impact the Company's results of operations and financial condition. The Company does not undertake to update the forward-looking statements contained herein to conform to actual results or changes in our expectations, whether as a result of new information, future events or otherwise.

# The Presentation of Non-GAAP Financial Measures

In addition to the Company's presentation of its financial position and results of operations in conformity with accounting principles generally accepted in the United States ("GAAP"), the Company has also presented measures of its financial position and results of operations which are not determined in accordance with GAAP. These non-GAAP financial measures include earnings before interest, taxes, depreciation and amortization ("EBITDA"). Additionally, with respect to the fiscal years ended April 1, 2018 and March 31, 2019, the Company has presented what its net income, earnings per share and EBITDA would have been if certain non-recurring costs had not been recognized (to arrive at "Adjusted Net Income", "Adjusted Earnings per Share" and "Adjusted EBITDA", respectively). The charges excluded to calculate Adjusted Net Income, Adjusted Earnings per Share and Adjusted EBITDA are significant components to be considered in an understanding and assessment of the Company's results of operations. The Company believes that the non-GAAP financial measures included in this presentation provide useful information and are important indicators of the Company's ability to generate cash sufficient to service its debt, declare and pay dividends, make strategic investments and capital expenditures and meet working capital requirements and other obligations as they become due. The Company uses these non-GAAP financial measures internally to monitor the Company's operating results and cash flow and to evaluate the performance of its businesses. These non-GAAP financial measures are provided as supplemental information and should be considered in addition to, and not as a substitute for, the Company's GAAP measures, including its net income, earnings per share, cash flow provided by or used in operating, investing or financing activities, and other measures of the Company's financial position or results of operations reported in accordance with GAAP. Because these non-GAAP financial measures are, by definition, not calculated in accordance with GAAP, another company using the same GAAP financial information could possibly arrive at a different calculation of these non-GAAP financial measures. Therefore, the non-GAAP financial measures as presented by the Company may not be comparable to similarly-titled measures that may be presented by another company.
