TTM Technologies, Inc. Investor Presentation

October 2025

Inspiring Innovation

Disclaimers

Forward-Looking Statements

This communication may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including statements related to the future business outlook, events, and expected performance of TTM Technologies, Inc. ("TTM", "we" or the "Company"). The words "anticipate," "believe," "plan," "forecast," "foresee," "estimate," "project," "expect," "seek," "target," "intend," "goal" and other similar expressions, among others, generally identify "forward-looking statements," which speak only as of the date the statements were made and are not guarantees of performance. Actual results may differ materially from these forward-looking statements. Such statements relate to a variety of matters, including but not limited to the operations of TTM's businesses. These statements reflect the current beliefs, expectations and assumptions of the management of TTM, and we believe such statements to have a reasonable basis.

It is uncertain whether any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do, what impact they will have on the results of operations and financial condition of the Company. These forward-looking statements are based on assumptions that may not materialize, and involve certain risks and uncertainties, many of which are beyond our control, that could cause actual events or performance to differ materially from those indicated in such forward-looking statements. Factors, risks, trends, and uncertainties that could cause actual results to differ materially from those projected, anticipated, or implied in forward-looking statements include, but are not limited to potential changes in domestic or global economic conditions, demand for our products, market pressures on prices of our products, warranty claims, changes in product mix, contemplated significant capital expenditures and related financing requirements, our dependence upon a small number of customers, and other factors set forth in the Company's most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q and in the Company's other filings filed with the Securities and Exchange Commission (the "SEC"), including under the heading "Risk Factors", and which are available at the SEC's website at www.sec.gov.

TTM does not undertake any obligation to update any of these statements to reflect any new information, subsequent events or circumstances, or otherwise, except as may be required by law, even if experience or future changes make it clear that any projected results expressed in this communication or future communications to stockholders, press releases or Company statements will not be realized. In addition, the inclusion of any statement in this communication does not constitute an admission by us that the events or circumstances described in such statement are material.

Use of Non-GAAP Financial Measures

In addition to the financial statements presented in accordance with U.S. generally accepted accounting principles ("GAAP"), TTM uses certain non-GAAP financial measures, including Adjusted EBITDA, Non-GAAP Net Income, Non-GAAP Gross Margin, Non-GAAP EPS and Adjusted Operating Cash Flow. We present non-GAAP financial information to enable investors to see TTM through the eyes of management and to provide better insight into our ongoing financial performance.

Disclaimers (cont.)

A material limitation associated with the use of the above non-GAAP financial measures is that they have no standardized measurement prescribed by GAAP and may not be comparable to similar non-GAAP financial measures used by other companies. We compensate for these limitations by providing full disclosure of each non-GAAP financial measure and reconciliation to the most directly comparable GAAP financial measure. However, the non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

See Appendix for reconciliations of Non-GAAP metrics to the most comparable GAAP metric.

Data Used in This Presentation

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Third Party Information

The information contained herein does not purport to be all inclusive. This presentation has been prepared by the Company and includes information from other sources believed by the Company to be reliable. No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of any of the opinions and conclusions set forth herein based on such information. This presentation may contain descriptions or summaries of certain documents and agreements, but such descriptions or summaries are qualified in their entirety by reference to the actual documents or agreements. Unless otherwise indicated, the information contained herein speaks only as of the date hereof and is subject to change, completion or amendment without notice.

Leading Technology Solutions provider of Mission Systems, PCBs and Specialty Components

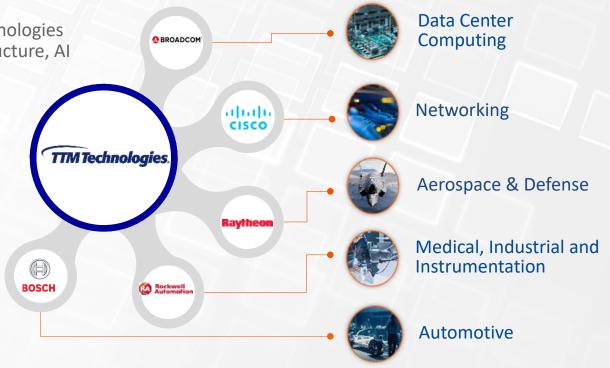

Technology-enabled end markets and customers

Critical supplier to today's fastest growing technologies such as advanced defense radar, cloud infrastructure, Al data centers, automobile technology, industrial automation and internet of things

Significant global footprint with 22 facilities and over 17,000 employees

Scale:

\$2.4 billion FY24 revenue

History of TTM

FY 1997 FY 1999 FY 2001 FY 2003 FY 2005 FY 2007 FY 2009 FY 2011 FY 2013 FY 2015 FY 2017 FY 2019 FY 2021 FY2023

Acquires Telephonics

TTM Continues to Transform the Business by Implementing Its Core Strategy of Differentiation

The result

- Highly valued partner and satisfied customers
- Strong and diversified portfolio with leading technical capabilities across all markets
- Greater stability, less cyclicality and improved visibility

Differentiating TTM

Transformation to better business model continues

Investing in engineering/technology and new regions

- Engineered solutions with technical capabilities (Anaren, Telephonics, and Syracuse) in stable and growing A&D end-market
- Footprint diversification (Penang, Malaysia and Eau Claire, WI) to prepare for regional growth

Reducing exposure to cyclical consumer-oriented / commodity business

- Mobility divestiture
- E-M Solutions restructuring
- Sold Shanghai Back Plane Assembly facility

Strategic Focus

Diversification

- Diverse end markets
- Near term Aerospace and Defense, Data Center Computing and Networking

Differentiation

- Engineering depth
- Early engagement
- Technology breadth
- Global footprint

Discipline

- Operational execution
- Earnings power
- Cash flow generation

End Market Growth Drivers and Outlook

	FY 2024 Net Sales	End Market Growth Drivers	2023 – 2028 CAGR (3 rd Party)	2025 TTM View
Aerospace & Defense	46%	Increased Use of AESA Radar & Increased Military Equipment Builds	3-5%	Above

Aerospace & Defense Business At A Glance

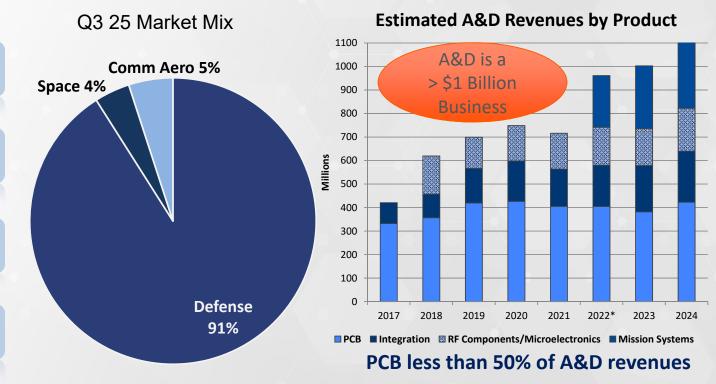

Q3 25

Revenue growth +20% YoY

Program backlog \$1.46 billion

Key defense programs alignment

Engineered products focus

*pro-forma Telephonics

Program Portfolio Positioned for Growth

Top Strategic OEM Customers

Raytheon, Lockheed Martin & Sikorsky,
 Northrop Grumman, L3Harris, Boeing

Top Direct Government Customers

US Army, US Navy, US Air Force,
 International Ministries of Defence

Future Expansion

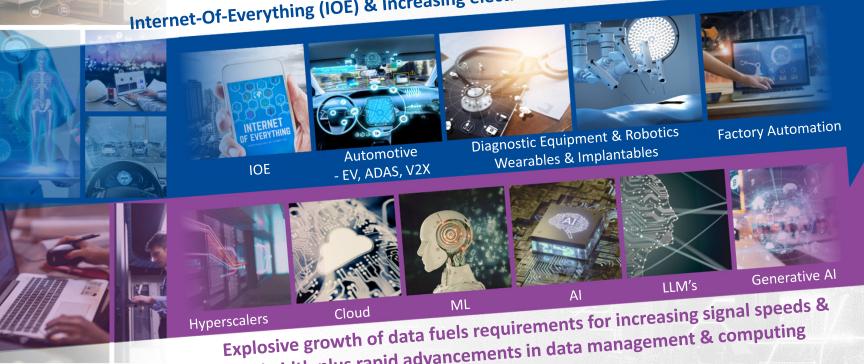

Commercial Space OEMs

We support over 200 programs, including key franchises for every major OEM

Commercial Sector Megatrends

Internet-Of-Everything (IOE) & Increasing electronic content across AMI&I Markets

bandwidth plus rapid advancements in data management & computing

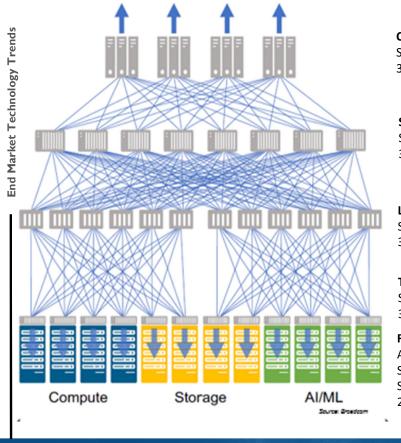

Notes:

V2X = Vehicle to Everything ML = Machine Learning LLM = Large Language Models

Data Center Architecture Driving PCB Technology

Datacenter Architecture Technology Advancements

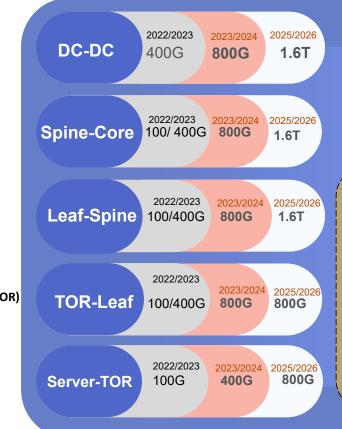

Core Switches 32-256 Ports

Spine Switches 32-128 Ports

Leaf Switches 32-64 Ports

Top of Rack (TOR) Switches 32-64 Ports

Rack
Al, Compute,
Servers &
Storage
2 Ports/Server

Road mapping, Early Engagement and Design Collaboration for Differentiated Advanced Tech PCB Solutions:

- Asymmetric, oversized panels and Advanced HDI
- Improved Backdrilling Capability. Zero Stub
- Materials-Extreme & Ultra Low Loss
- Improved Copper Technology
- Advanced Drilling & Plating Aspect Ratio

End Market Growth Drivers and Outlook

		FY 2024 Net Sales ¹	End Market Growth Drivers	2023 – 2028 CAGR (3 rd Party)	2025 TTM View
Aerospace & Defense		46%	Increased Use of AESA Radar & Increased Military Equipment Builds	3-5%	Above
Automotive		13%	Electric & Autonomous Vehicle & Safety/ADAS/Infotainment	3-5%	Below
Data Center Computing		20%	Semiconductor Development & Data Center expansion	7-9%	Above
Medical Industrial & Instrumentation		14%	Patient Monitoring & Automated Test Equipment and Robotics	2-4%	Above
Networking	EHE.	7 %	5G Infrastructure Spend & Networking Infrastructure	2-5%	Above

¹The end market revenue has been recasted to reflect certain adjustments to allocations resulting from the segment reorganization.

¹RF&S Facilities

New Penang, Malaysia Manufacturing

- Supporting customers with regional supply chain diversification (China+1)
- Factory Specifications
 - 800,000 square feet
 - Factory automation with Industry 4.0
 - Productivity 150% > China factories
 - Will employ 1,000 people
 - Most sustainable factory in TTM
 - Largest rooftop solar installation in Malaysia
 - Target Data Center Computing and MI&I Markets
- Currently ramping to target \$200 million annual revenues
- Secured land rights for ten acres adjacent to first facility

New Facility in Syracuse, NY

- What: Ultra-HDI (High Density Interconnect) PCB manufacturing facility
- Where: Adjacent to our existing SYR-A&D location
- Why: To address rapidly increasing U.S. Defense demand for capability and capacity in the United States
- **How:** Investment of \$100m+ to build a facility in excess of 160,000 sq. ft.
- When: Began construction in 2024, low-rate production expected in 2026.

Phase 1 Target \$100 million revenues

New Eau Claire, Wisconsin Facility

- Future high-volume U.S. production of advanced technology PCBs
- Data center computing and Networking for generative AI applications
- Shortens lead time required to bring new U.S. domestic capacity online
- TTM's largest U.S. facility at 750, 000 square feet

Strategic Focus

Diversification

- Diverse end markets
- Near term Aerospace and Defense, Data Center Computing, and Networking

Differentiation

- Engineering depth
- Early engagement
- Technology breadth
- Global footprint

Discipline

- Operational execution
- Earnings power
- Cash flow generation

Historical TTM Reported Annual Revenue and Operating Margins

¹Operating margin is reported non-GAAP. See Appendix for reconciliation ²Includes approximately six months of Telephonics which closed 6/27/22

Financial Performance and Targets

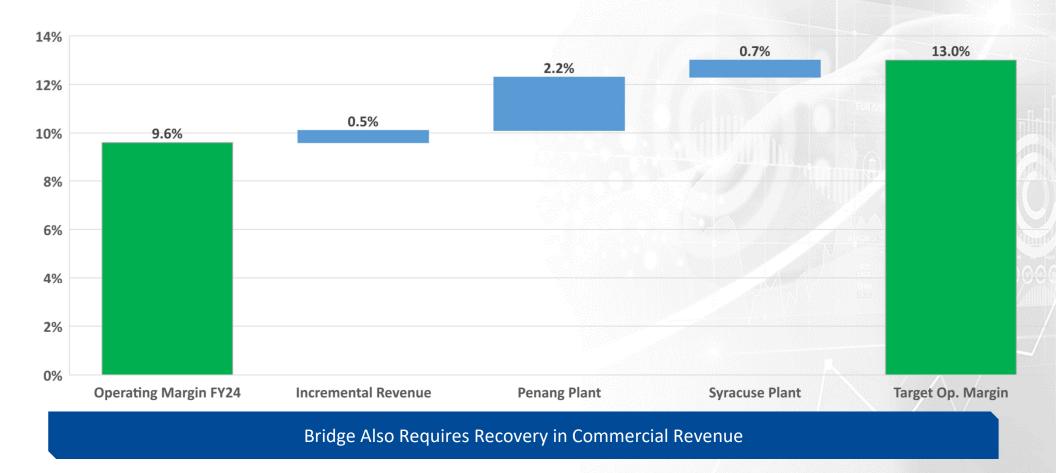

Metric	2024	Q3 2025 YTD	Long Term Target
Revenue growth	9.4%	19.0%	4-6%
Non-GAAP Operating Margin ¹	9.6%	11.4%	11-13%
Adjusted EBITDA Margin ¹	14.4%	15.5%	15-17%
Capex	6.3% of Revenue	10.4% of Revenue	4-5% of Revenue
Cash Flow from Operations	9.7% of Revenue	10.7% of Revenue	> 10% of Revenue
Return on Invested Capital	10.3%	13.2%	13-15%

¹See Appendix for reconciliation

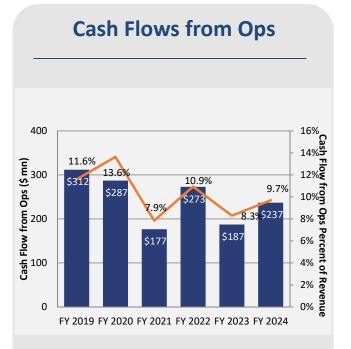

SG10

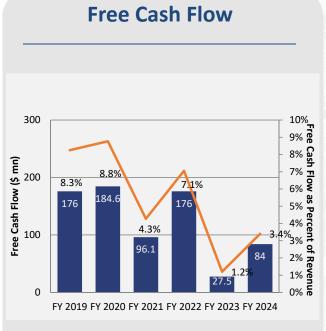

Operating Margin Improvement Bridge

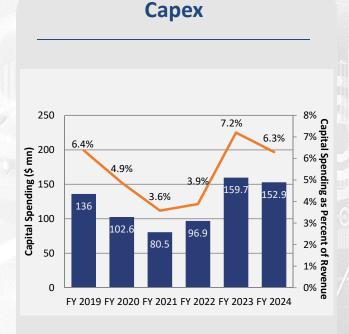

Strong Cash Flow Enables Flexible Capital Allocation Options

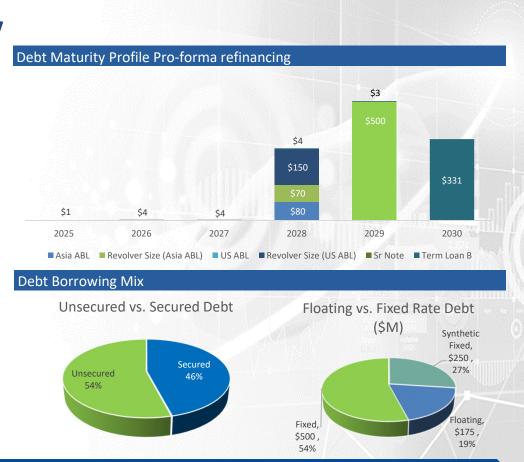

Penang investment temporarily increasing capital spending in 2023/2024 and Syracuse in 2024

Capital Structure and Liquidity

- Net debt leverage ((debt-cash)/EBITDA) is 1.0x below the low end of our target range of 1.5 –
 2.0x and very healthy
- No debt maturing until 2028
- Current covenants cap our leverage at 4.25x
- Initiated swap in April 2023 for \$250M, effectively fixing ~70% of Term Loan B rate at 5.75%, current borrowing rate is 6.38%
- Current borrowing rate is ~5.06% average interest rate on total debt.
- Liquidity (cash plus ABLs) is solid at \$690.5M

Capital Structure in Excellent Shape

Capital Allocation Strategy

Invest in differentiation

- New product and technology development
- Leading edge equipment
- Strategic acquisitions to strengthen product/technology portfolio

Repay debt until <2x net debt/EBITDA

- \$50 million repayment of Term Loan B in January 2023
- Net debt/EBITDA was 1.0x at the end of Q3'25
- Refinanced Term Loan and US and Asia ABLs in Q2 2023
- Refinanced Term Loan August 2024

Return of capital to shareholders

- Completed entire \$100 million stock buyback in FY 2022
- Purchased 4.5 million shares for \$76.8 million at \$17.09 through end of Q2'25
- Authorized new \$100 million buyback on May 9th 2025
- Future buybacks dependent on timing of M&A as well as organic investments

Going Forward

- Continued focus on markets with growth characteristics and favorable mega-trends
- Ongoing investment in differentiation:
 - Advanced PCB technology capabilities for Generative AI
 - Engineered RF products for A&D
 - Manufacturing footprint
- Solid Financial Management
 - Plan in place to improve operating margins
 - Strong focus on cash flow generation
 - Capital allocation balances investing in business with return of capital to shareholders

Non-GAAP Reconciliations (TTM Consolidated) Q3 2025 YTD

³ Non-GAAP gross profit and gross margin measures exclude amortization of definite-lived intangibles, stock-based compensation, unrealized (gain) loss on commodity hedge, and other charges.

⁴ This information provides non-GAAP net income and non-GAAP EPS, which are non-GAAP financial measures. Management believes that both measures -- which add back amortization of definite-lived intangibles, stock-based compensation, non-cash interest expense, (gain) loss on sale of property, plant and equipment, unrealized (gain) loss on commodity hedge, unrealized (gain) loss on foreign exchange, restructuring, acquisition-related, and other charges as well as the associated tax impact of these charges and discrete tax items -- provide additional useful information to investors regarding the Company's ongoing financial condition and results of operations.

⁵ Income tax adjustments reflect the difference between income taxes based on a non-GAAP tax rate and a forecasted annual GAAP tax rate.

⁶ Adjusted EBITDA is defined as earnings before income taxes provision, interest expense, amortization of definite-lived intangibles, depreciation expense, stock-based compensation, (gain) loss on sale of property, plant and equipment, unrealized (gain) loss on commodity hedge, unrealized (gain) loss on foreign exchange, restructuring, acquisition-related, and other charges. We present adjusted EBITDA to enhance the understanding of our operating results, and it is a key measure we use to evaluate our operations. In addition, we provide our adjusted EBITDA because we believe that investors and securities analysts will find adjusted EBITDA to be a useful measure for evaluating our operating performance and comparing our operating performance with that of similar companies that have different capital structures and for evaluating our ability to meet our future debt service, capital expenditures, and working capital requirements. However, adjusted EBITDA should not be considered as an alternative to cash flows from operating activities as a measure of liquidity or as an alternative to net income as a measure of operating results in accordance with accounting principles generally accepted in the United States of America.
