This announcement comes on the heels of last month's announcement that Safe & Green Holdings had been selected by the Tunnel to Towers Foundation to construct a traveling modular home, the Comfort Home

Show model, designed to showcase the foundation's Homeless Veteran Program. The program aims to eradicate homelessness amongst nearly 35,000 veterans nationwide by providing high-quality permanent housing solutions with comprehensive wrap-around services aimed at diagnosing root causes of homelessness, and working to reintegrate veterans back into the community, which they sacrificed life and limb to protect.

Paul Galvin, Chairperson and CEO, stated, "We are honored to collaborate with Impact Housing and the Tunnel to Towers Foundation to build the Foundation's inaugural three Comfort Homes. Each unit, measuring 35 feet in length and 14 feet in width, will be presented to a veteran in the Houston vicinity. The goal for the project is to kick off by early November. Houston was selected by the Tunnel to Towers Foundation as the location for their first development community and these three units are the beginning of this development. We look forward to building additional Comfort Homes for the Tunnel to Towers Foundation as they expand this commendable mission of combating veteran homelessness across the United States, while recognizing their invaluable service. By offering secure, easily deployable, and cost-effective homes, we aim to make a substantial impact in eradicating homelessness and empowering these Veterans to reestablish their lives."

## **About the Tunnel to Towers Foundation**

Born from the tragedy of 9/11, the Tunnel to Towers Foundation carries out its mission to “do good,” by providing mortgage-free homes to Gold Star and fallen first responder families with young children and by building specially adapted smart homes for catastrophically injured veterans and first responders. Tunnel to Towers is also committed to eradicating veteran homelessness and helping America Never Forget September 11, 2001.
