Midwest Energy Emissions Corp. to Present at EUEC 2013 Conference in Phoenix, Arizona

WORTHINGTON, OH -- (Marketwire) -- 01/17/13 -- [Midwest Energy Emissions Corp.](#) (OTCQB: MEEC), a leader in mercury emission capture technology for power plants and other coal burning units, announced today that Marc Sylvester, Vice President of Sales will present at the Energy, Utility & Environmental Conference ([EUEC](#)) 2013 in Phoenix, Arizona on Monday, January 28 at 3:30 p.m. Mountain Time. The annual EUEC is the largest energy utility conference in the US.

Mr. Sylvester's presentation entitled, Maximizing Mercury Capture Under Challenging Combustion Scenarios, describes Midwest Energy Emissions Corp.'s success with its Sorbent Enhancement Additive (SEA™) mercury capture technology in recent demonstrations with varying amounts of mercury in the coal and at high SO3 levels.

Midwest will be at this conference at exhibit information booth #716.

About Midwest Energy Emissions Corp. (ME2C)

We deliver cost effective mercury capture technologies to power plant and other large industrial coal-burning units in the United States and Canada. Our proprietary technology allows customers to meet even the new, highly restrictive standards the [U.S. EPA](#) has set for mercury emissions, in an effective and economical manner with the least disruption to the current equipment and on-going operations. For more information, see our website at www.midwestemissions.com.

Forward-Looking Statements

Statements in this release that are not historical facts are forward-looking statements, which involve risks and uncertainties that could cause actual events or results to differ materially from those expressed or implied in this release. Matters that may cause actual results to differ materially from those in the forward-looking statements include, among other factors, the gain or loss of a major customer, change in environmental regulations, disruption in supply of materials, a significant change in general economic conditions in any of the regions where our customer utilities might experience significant changes in electric demand, a significant disruption in the supply of coal to our customer units, the loss of key management personnel, failure to obtain adequate working capital to execute the business plan and any major litigation regarding the Company. In addition, this release contains time-sensitive information that reflects management's best analysis only as of the date of this release. The Company does not undertake any obligation to publicly update or revise any forward-looking statements to reflect future events, information or circumstances that arise after the date of this release. Further information concerning issues that could materially affect financial performance related to forward-looking statements contained in this release

can be found in the Company's periodic filings with the Securities and Exchange Commission.
