- *Twenty-Seventh Consecutive Quarterly Dividend Bringing Cumulative Distributions to \$7.16 per Share since IPO in June 2005*

PALO ALTO, Calif.--(BUSINESS WIRE)-- Hercules Technology Growth Capital, Inc. (NYSE:HTGC), a leader in customized debt financing for entrepreneurial venture and private equity-backed companies in technology-related markets including cleantech and life science, announced today that its Board of Directors has declared and raised a first quarter cash dividend of \$0.24 per share, an increase of 4.0%. The dividend will be payable on May 25, 2012, to shareholders of record as of May 18, 2012.

Hercules' Board of Directors maintains a variable dividend policy with the objective of distributing four quarterly distributions in an amount that approximates 90 - 100% of our taxable quarterly income or potential annual income for a particular year. In addition, at the end of the year, we may also pay an additional special dividend or fifth dividend; such that we may distribute approximately all of our annual taxable income in the year it was earned, while maintaining the option to spill over our excess taxable income.

The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon its taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of its distributions for a full year.
