Hercules Capital Announces Supplemental Cash Distribution of \$0.01 per Share for the First Quarter of 2019

Supplemental Cash Distribution of \$0.01 per Share is in Addition to the Regular Quarterly Cash Distribution for the First Quarter of 2019 of \$0.32 per Share

PALO ALTO, Calif.--(BUSINESS WIRE)-- [Hercules Capital, Inc.](#) (NYSE: HTGC) ("Hercules" or the "Company"), the largest and leading specialty financing provider to innovative venture growth stage companies backed by some of the leading and top-tier venture capital and select private equity firms, is pleased to announce that its Board of Directors has declared a supplemental cash distribution of \$0.01 per share.

This supplemental cash distribution will be paid out of Hercules Capital's undistributed taxable income (taxable income in excess of distributions paid) as of March 31, 2019. The following shows the key dates of the supplemental distribution payment:

Record Date	May 13, 2019
Payment Date	May 20, 2019

This supplemental cash distribution is in addition to the previously announced regular quarterly cash distribution that Hercules declared for the first quarter of 2019 of \$0.32 per share. Including the regular quarterly and supplemental cash distributions declared to date, Hercules Capital will have paid \$15.61 per share in cumulative cash distribution since its June 2005 initial public offering.

Hercules' Board of Directors maintains a variable distribution policy with the objective of distributing four quarterly distributions in an amount that approximates 90% to 100% of the Company's taxable quarterly income or potential annual income for a particular year. In addition, during the year, the Company's Board of Directors may choose to pay additional supplemental distributions, so that the Company may distribute approximately all its annual taxable income in the year it was earned, or it can elect to maintain the option to spill over the excess taxable income into the coming year for future distribution payments.

The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon its taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of its distributions for a full year. Of the distributions declared during the quarter ended March 31, 2019, 100% were distributions derived from the Company's current and accumulated earnings and profits. There can be no certainty to stockholders that this determination is representative of the tax attributes of the

Company's 2019 full year distributions to stockholders.
