Patriot Glass Solutions, a Division of C-Bond Systems, and its New Distributor, Scottish Window Tinting, to Hold Demonstration of C-Bond Ballistic-Resistant System in Denver on October 21, 2021

During the live demonstration the glass treated with C-Bond BRS will be shot multiple times with a handgun and an AR-15 rifle without the bullets penetrating the glass

HOUSTON, Oct. 14, 2021 (GLOBE NEWSWIRE) -- [C-Bond Systems](#) (the “Company” or “C-Bond”) (OTC: CBNT), a nanotechnology solutions company, today announced its Patriot Glass Solutions division will host a joint demonstration of C-Bond BRS (ballistic-resistant system) with its new distributor, [Scottish Window Tinting](#), in Denver on October 21, 2021.

During the presentation, several pieces of glass treated with C-Bond BRS will be shot at multiple times with a 9 mm handgun and an AR-15 rifle without the bullets penetrating the glass. Upon successful demonstration of the full functionality and capabilities of C-Bond BRS, Patriot Glass Solutions expects to attract new customers in both the public and private sectors.

Interested attendees including media, legislators, architects, construction firms, school districts, and more should contact the Company at the email address below for more information and to gain access to the event.

Patriot Glass Solutions protects personal, commercial and government property from looting, rioting, break-ins, and gunfire. Its leading products are [C-Bond BRS](#), a ballistic-resistant film system, and [C-Bond Secure](#), a multi-purpose glass strengthening primer and window film mounting solution that deters forced entry, as well as other types of specialized window film including solar or “green” film, anti-eavesdropping film, graffiti control film, bird strike film, decorative film, and more.

C-Bond BRS is validated to provide NIJ Level I, Level IIA, Level II, and UL 752 ballistic-resistant protection by a third-party laboratory. It is installed at many schools and high-security facilities across the U.S.

C-Bond’s glass strengthening technology is protected by 22 patents/patent-pending applications. The C-Bond solution increases the strength of the window glass unit, enabling

the glass to dissipate higher energy by targeting and repairing the microscopic flaws and defects that are naturally distributed on the glass surface. These surface imperfections weaken the glass structure and initiate failures. C-Bond chemically bonds to the defects increasing both strength and flexibility.

About C-Bond

C-Bond Systems, Inc. (OTC: CBNT) is a Houston-based nanotechnology company and marketer of the patented and patent-pending C-Bond technology, which is independently proven to strengthen glass in automotive and structural applications. The Company's Transportation Solutions Group sells C-Bond nanoShield, a liquid solution applied directly to automotive windshields, primarily through distributors. The Company's Patriot Glass Solutions sells ballistic-resistant glass solutions and forced entry deterrent solutions directly to private enterprises, schools, and government agencies, primarily through its majority-owned subsidiary, A1 Glass Coating. The Company also sells MB-10 Tablets, a disinfection product on EPA's List N. For more information, please visit our website: www.cbondsystems.com, Facebook: <https://www.facebook.com/cbondsys/> and Twitter: <https://twitter.com/CBondSys>. If you are interested in attending the live demonstration of C-Bond BRS in Denver on October 21, 2021, please contact atomek@cbondsystems.com.

Forward-Looking Statements

Statements in this press release about our future expectations, including the likelihood that during the presentation, several pieces of glass treated with C-Bond BRS will be shot at multiple times with a 9 mm handgun and an AR-15 rifle without the bullets penetrating the glass; the likelihood that upon successful demonstration of the full functionality and capabilities of C-Bond BRS, Patriot Glass Solutions expects to attract new customers in both the public and private sectors; constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and our actual results could differ materially from expected results. These risks and uncertainties include, without limitation, the Company's ability to successfully commercialize its products; the effect of the COVID-19 global pandemic on the Company's and its customers' ability to operate; the Company's and its customers' ability to source materials; the Company's ability to raise capital; as well as other risks. Additional information about these and other factors may be described in the Company's filings with the Securities and Exchange Commission ("SEC") including its Form 10-K filed on April 14, 2021, its Forms 10-Q filed on August 16, 2021, May 14, 2021, and November 16, 2020, and in future filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
