Ondas Holdings to Report Fourth Quarter and Full Year 2022 Financial Results on March 14, 2023, at 8:30 a.m. ET

WALTHAM, Mass.--(BUSINESS WIRE)-- [Ondas Holdings Inc.](#) (Nasdaq: ONDS) ("Ondas" or the "Company"), a leading provider of private industrial wireless networks and commercial drone and automated data solutions, will hold a conference call on Tuesday, March 14, 2023, at 8:30 a.m. Eastern time to discuss its financial results for the fourth quarter and full year ended December 31, 2022. The results will be reported in a press release prior to the conference call.

Ondas management will host the conference call and simultaneous webcast, followed by a question-and-answer period.

Date: Tuesday, March 14, 2023

Time: 8:30 a.m. Eastern time

Toll-free dial-in number: 844-883-3907

International dial-in number: 412-317-5798

Call participant pre-registration link: [here](#)

The Company encourages listeners to pre-register, which allows callers to gain immediate access and bypass the live operator. Please note that you can register at any time during the call. For those who choose not to pre-register, please call the conference telephone number 10-15 minutes prior to the start time, at which time an operator will register your name and organization.

The conference call will also be broadcast live and available for replay [here](#) and via the investor relations section of the Company's website at [ir.ondas.com](#). A replay will be accessible from the investor relations website after completion of the event.

About Ondas Holdings Inc.

Ondas Holdings Inc. ("Ondas") is a leading provider of private wireless data solutions via Ondas Networks Inc. ("Ondas Networks") and commercial drone solutions through American Robotics, Inc. ("American Robotics" or "AR") and Airobotics LTD ("Airobotics"), which we operate as a separate business unit called Ondas Autonomous Systems.

Ondas Networks is a developer of proprietary, software-based wireless broadband technology for large established and emerging commercial and government markets. Ondas Networks' standards-based (802.16s), multi-patented, software-defined radio FullMAX platform enables Mission-Critical IoT (MC-IoT) applications by overcoming the bandwidth limitations of today's legacy private licensed wireless networks. Ondas Networks' customer end markets include railroads, utilities, oil and gas, transportation, aviation (including drone operators) and government entities whose demands span a wide range of mission critical

applications.

Our Ondas Autonomous Systems business unit designs, develops, and markets commercial drone solutions via the Optimus System™ and Scout System™ (the “Autonomous Drone Platforms”). The Autonomous Drone Platforms are highly automated, AI-powered drone systems capable of continuous, remote operation and are marketed as "drone-in-a-box" turnkey data solution services. They are deployed for critical industrial and government applications where data and information collection and processing are required. The Autonomous Drone Platforms are typically provided to customers under a Robot-as-a-Service (RAAS) business model. American Robotics and Airobotics have industry leading regulatory successes which include having the first drone system approved by the FAA for automated operation beyond-visual-line-of-sight (BVLOS) without a human operator on-site.

Ondas Networks, American Robotics and Airobotics together provide users in oil & gas, rail, mining, agriculture, public safety and other critical infrastructure and government markets with improved connectivity and data collection and information processing capabilities.
