Galaxy Gaming Expands Its Winning MONOPOLY Portfolio and Debuts Galaxy Link and Spotlight Spin at G2E 2026

LAS VEGAS, Sept. 21, 2026 (GLOBE NEWSWIRE) -- Galaxy Gaming, Inc.® (OTC: GLXZ), the world's leading independent developer and distributor of casino table games and technology, will showcase an exciting lineup of new products, progressive innovations, and iGaming content at Global Gaming Expo (G2E) 2026, booth #4452.

Hasbro's Iconic Brands Take Over the Table Game Pit

Through its exclusive licensing agreement with Hasbro®, Galaxy Gaming continues to bring some of the world's most recognizable brands to casino table games. MONOPOLY® and YAHTZEE® have been transformed into engaging pit experiences that combine familiar gameplay elements with innovative mechanics, linked progressives, and premium presentation.

Leading the portfolio is MONOPOLY Table Games Progressive, which has quickly become one of the industry's most talked-about new products and was recently shortlisted for the Global Gaming Awards Americas 2026 Product Innovation of the Year category.

Building on the proven success of MONOPOLY Table Games Progressive, now installed across North America and EMEA, Galaxy Gaming will unveil its newest MONOPOLY-branded innovation at G2E: MONOPOLY Building Riches™. Designed for floor-wide excitement, MONOPOLY Building Riches links different table games together through a thrilling bonus round experience. Featuring the iconic MONOPOLY game board, a single-seed meter, and rapidly growing jackpots, the game turns every bonus round into a memorable player moment.

"Players want more ways to win, and MONOPOLY Building Riches delivers exactly that," said Matt Reback, President and CEO of Galaxy Gaming. "The combination of the dynamic bonus round, the power of the MONOPOLY brand, and the flexibility to connect multiple table game types creates a compelling new experience for players and operators alike."

Visitors to the Galaxy Gaming booth will also have the opportunity to experience 3-Dice YAHTZEE®. Easy to learn and highly entertaining, 3-Dice YAHTZEE continues to generate strong interest from operators seeking distinctive branded table game experiences.

"We're just getting started with what we can bring to the casino floor through our partnership with Hasbro," added Reback. "G2E attendees will get an early look at what's next and see firsthand how these beloved brands are creating new excitement for table game players."

Introducing Spotlight Spin Progressive and Galaxy Link

Galaxy Gaming will also debut Spotlight Spin Progressive™, a striking new progressive solution that can be linked with MONOPOLY Building Riches or deployed as a standalone experience. Inspired by the glamour of Hollywood's golden age, Spotlight Spin features luxurious Art Deco styling, dazzling graphics, individual prize outcomes through a shared bonus game experience, and high-incrementing progressive jackpots designed to keep players engaged and the pit energized.

At the heart of MONOPOLY Building Riches and Spotlight Spin Progressive is Galaxy Link™, Galaxy Gaming's newest innovation and the connective technology that makes these linked experiences possible. Every linked table draws from a single seed, so jackpots climb faster and hit bigger. That same single-seed design gives operators a real edge, too: bigger, faster-growing jackpots without the cost or complexity of funding separate seed pools for every table. Powered by GOS™ Sapphire, Galaxy Link connects progressives across games, tables, pits, and even properties, giving operators the ability to link MONOPOLY Building Riches with Spotlight Spin Progressive, and with future Galaxy Gaming progressives still to come.

Delivering Excitement with GOS Sapphire and World-Class Games

Behind all of Galaxy Gaming's newest progressive products is the award-winning GOS Sapphire, the company's next-generation table game operating system. GOS Sapphire powers some of the industry's most exciting progressive experiences through advanced jackpot configurations, sleek sensor technology, and real-time digital tracking capabilities. Its flexible electronic bonusing platform supports Dynamic Progressive™, an exciting feature that can randomly award multipliers of up to 10x, creating additional anticipation and engagement on every eligible wager.

Operators continue to embrace GOS Sapphire's flexibility, now extended through Galaxy Link, which creates larger prize opportunities and enhanced player excitement across the floor.

Beyond progressives, Galaxy Gaming maintains the industry's most comprehensive table game portfolio, featuring proven performers such as 21+3®, Perfect Pairs®, EZ Baccarat®, Lucky Ladies®, and Heads Up Hold'em®, alongside newer innovations including Ride Free™ MONOPOLY® Edition and High Card Flush® Ultra.

Galaxy Gaming Digital Continues Global Expansion

Galaxy Gaming remains the leading licensor of proprietary table game content for both live dealer and RNG platforms worldwide. Popular titles including 21+3, Lucky Ladies, Perfect Pairs, EZ Baccarat, and Buster Blackjack® are available across more than 5,000 iGaming sites globally.

Over the past year alone, players have placed more than 4.5 billion wagers online across Galaxy Gaming content, demonstrating the continued global demand for the company's portfolio.

"Galaxy Gaming Digital has achieved tremendous growth in recent years, expanding our footprint through new B2B and B2C partnerships and driving billions of wagers across our titles worldwide," said Jason McCulloch, Vice President of iGaming. "As we look ahead, we

remain committed to delivering innovative content that elevates the iGaming experience."

Experience the Future of Table Games at G2E

From award-nominated branded progressives to next-generation operating systems and industry-leading digital content, Galaxy Gaming continues to redefine what's possible on the casino floor.

Visit Galaxy Gaming at booth #4452 during G2E 2026 to experience MONOPOLY Building Riches™, Spotlight Spin Progressive™, Galaxy Link™, 3-Dice YAHTZEE®, GOS Sapphire™, and more.
