CarCharging Partners With Gridscape Solutions to Integrate Nissan DC Fast Chargers with the Blink Network

Largest Electric Vehicle Charging Service Firm to Provide Blink Network Option for DC Fast Chargers and Allows Access to Nearly 35,000 Active Blink Members

MIAMI BEACH, Fla., May 20, 2014 /PRNewswire/ -- [Car Charging Group, Inc.](#) (OTCQB: CCGI) ("CarCharging"), the leading provider of electric vehicle (EV) charging services, announced that it has partnered with Gridscape Solutions, a software and service company that specializes in designing and developing a broad range of smart energy solutions, to integrate Nissan's DC Fast Chargers with the Blink® Network, the software that operates, monitors, and tracks the Blink EV charging stations and all of its charging data. CarCharging acquired the Blink Network and all Blink related assets in October 2013.

Gridscape Solutions will design a turnkey hardware and software solution to integrate the Nissan DC Fast Chargers with the Blink Network. This solution would expand network options for EV charging service hosts by providing the opportunity to select the Blink Network to operate and manage their Nissan DC Fast Charger and provide service to the nearly 35,000 active Blink members nationwide.

"CarCharging has always been supportive of solutions that provide interoperability of EV charging stations and purchasing the Blink Network provided us with the ability to expand access to the network," said Michael D. Farkas, Founder and CEO of CarCharging. "As we have with Nissan, we welcome working with other EV charging service equipment manufacturers to truly expand the compatibility of EV charging stations and networks."

"Interoperability is key element that will fuel explosive growth and wide scale adoption of electric vehicles," said Vipul Gore, Chief Executive Officer of Gridscape Solutions. "Given our broad experience in developing high quality interoperable solutions for EV charging networks, we are excited to partner with CarCharging in its mission and applaud its efforts in leading this industry to open, interoperable solutions."

CarCharging is already working with Nissan to make EV charging more readily available and to expand consumer awareness of the electric car market. As part of these initiatives, CarCharging is initially deploying 48 Nissan-branded quick chargers and will continue to educate consumers about how the EV charging infrastructure enhances the adoption and use of electric cars.

CarCharging and Gridscape Solutions anticipate initially deploying several Nissan DC Fast Chargers on Blink Network by June 2014. EV service equipment manufacturers and EV drivers can learn more about CarCharging and the Blink Network at www.BlinkNetwork.com and www.CarCharging.com.

About Car Charging Group, Inc.

[Car Charging Group, Inc.](http://www.CarCharging.com) (OTCQB: CCGI) is a pioneer in nationwide public electric vehicle (EV) charging services, enabling EV drivers to easily recharge at locations throughout the United States. Headquartered in Miami Beach, FL with offices in San Jose, CA; New York, NY; and Phoenix, AZ; CarCharging's business model is designed to accelerate the adoption of public EV charging.

CarCharging offers various options to commercial and residential property owners for EV charging services. Our typical business model provides a comprehensive turnkey program where CarCharging owns and operates the EV charging equipment; manages the installation, maintenance, and related services; and shares a portion of the EV charging revenue with the property owner. Alternatively, property partners can share in the equipment and installation expenses with CarCharging operating and managing the EV charging stations and providing network connectivity. For properties interested in purchasing and owning EV charging stations, CarCharging can also provide EV charging hardware, site recommendations, connection to the Blink Network, and management and maintenance services.

Through its subsidiary, [Blink Network](http://www.BlinkNetwork.com), CarCharging also provides residential EV charging solutions for single-family homes. For more information, please visit www.BlinkHQ.com.

CarCharging has strategic partnerships across multiple business sectors including multi-family residential and commercial properties, parking garages, shopping malls, retail parking, and municipalities. CarCharging's partners include, but are not limited to Walgreens, IKEA, Wal-Mart, Simon Property Group, Equity One, Equity Residential, Forest City, Cinemark USA, Fox Studios, Facebook, PayPal, Kimpton Hotels and Restaurants, Mayo Clinic, San Diego Padres, University of Pennsylvania, Ace Parking, Central/USA Parking, Icon Parking, Rapid Parking, Parking Concepts, CVS, Related Management, Pennsylvania Turnpike Commission, Pennsylvania Department of Environmental Protection, City of Phoenix (AZ), City of Philadelphia (PA), and City of Miami Beach (FL).

CarCharging is committed to creating a robust, feature-rich network for EV charging and is hardware agnostic. CarCharging owns the Blink network, and owns and operates EV charging equipment manufactured by Blink, Aerovironment, ChargePoint, General Electric, Nissan, and SemaConnect. CarCharging's Level II charging stations are compatible with EVs sold in the United States including the Tesla Model S, Nissan LEAF, Chevy Volt, Mitsubishi i-Miev, Toyota Prius Plug-In, Honda Fit EV, and Toyota Rav4 EV, as well as many others scheduled for release over the next few years.
