KORU Medical Systems Announces Financial Results for Third Quarter 2020

CHESTER, N.Y.--(BUSINESS WIRE)-- **Repro Med Systems, Inc. dba KORU Medical Systems (NASDAQ: KRMD)** (“KORU Medical” or the “Company”) today announced financial results for the third quarter ended September 30, 2020 (“Q3 2020”).

Q3 2020 Overview

“The strength and resiliency of our core business, which provides our Freedom Integrated Infusion System to individuals with Primary Immune Deficiency Disease and Chronic Inflammatory Demyelinating Polyneuropathy, is helping us navigate the challenges of the COVID-19 pandemic. Our total net sales declined in Q3 2020 primarily attributable to lower clinical trial activity and allowances associated with U.S. sales. Net sales for the first nine months of 2020 rose 19% from the same period last year and volume growth continued within our business.”

Mr. Pettigrew continued, “We are continuing to manage our operations to deliver growth by capitalizing on multiple, sustainable long-term growth drivers. We remain confident in the strength of our core business, which is predominantly comprised of recurring revenues and excludes clinical trials. Our core business is likely to continue to grow given the heightened awareness of PIDD and CIDP diseases, proven and effective immunoglobulin therapy, the benefits of at home treatment, growing addressable patient populations, and an increasing focus by pharmaceutical manufacturers to develop subcutaneous drugs that allow individuals to self-administer these therapies at home. We believe we remain well-positioned to further capture clinical trials sales, support expanded drug indications for existing therapies, and pursue international expansion as the effects of the pandemic subside. Our business fundamentals and cash position remain strong.”

Update on Strategic Growth Initiatives

Hematology Drug Launch and Additional Clinical Trial Participation

The Freedom System was utilized in a recently completed Phase III clinical trial for a subcutaneous hematology drug. This drug is aimed at treating paroxysmal nocturnal hemoglobinuria (PNH), a rare, chronic blood disorder that affects over 15,000 patients worldwide. KORU Medical expects that this new drug will launch in 2021 and that the Freedom System will be the preferred delivery method. The Company also believes that the Freedom System will be utilized in several additional upcoming clinical trials with this same drug focused on expanding indications and disease states for larger patient populations.

“The new PNH drug is progressing towards its planned launch in 2021 and is currently being trialed in other indications using the Freedom System. Relationships such as this are an essential part of our strategic plan as this PNH indication alone has the potential to

significantly expand our core business,” said Mr. Pettigrew.

Q3 2020 Financial Results Summary

Net sales were \$6.1 million in Q3 2020 compared to \$6.6 million in last year’s third quarter.

Gross profit in Q3 2020 was \$3.9 million, or 64.8% of net sales, compared to \$4.4 million, or 66.2% of net sales, in Q3 2019, reflecting lower net sales.

Total operating expenses in Q3 2020 remained stable at \$3.6 million from Q3 2019.

Net income for Q3 2020 was \$0.2 million, or \$0.01 per share, compared to net income in Q3 2019 of \$0.7 million, or \$0.02 per share.

Q3 2020 Adjusted EBITDA was \$0.9 million compared to Adjusted EBITDA of \$2.2 million in Q3 2019. Adjusted EBITDA excludes from net income / (loss): income tax expense, depreciation and amortization, interest income, net, discontinued product expense, litigation expenses including stock-based settlement expense, manufacturing initiative expenses, and stock option expense.

Balance Sheet Summary

Cash and cash equivalents as of September 30, 2020 totaled \$32.4 million, with the increase from December 31, 2019 reflecting \$26.5 million of net proceeds from the capital raise completed in Q2 2020.

Non-GAAP Measures

This press release includes the non-GAAP financial measure of “Adjusted EBITDA” that is not in accordance with, nor an alternate to, generally accepted accounting principles and may be different from non-GAAP measures used by other companies. In addition, this non-GAAP measure is not based on any comprehensive set of accounting rules or principles. Non-GAAP financial measures should not be considered a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. They are limited in value because they exclude charges that have a material effect on our reported results and, therefore, should not be relied upon as the sole financial measures to evaluate our financial results. The non-GAAP financial measure is meant to supplement, and to be viewed in conjunction with, GAAP financial results. A reconciliation of our non-GAAP measure is included in an attachment to this press release.

Conference Call

Management will host a conference call on Wednesday, November 4, 2020 at 9:00 am ET to discuss the results and business activities. Interested parties may participate in the call by dialing:

- (877) 407-9753 (*Domestic*) or
- (201) 493-6739 (*International*)

Webcast registration: [Click Here](#)

Following the live call, a replay will be available for six months on the Company's website, www.korumedical.com under "Investor Relations."

About KORU Medical Systems

KORU Medical Systems develops, manufactures, and commercializes innovative and easy-to-use specialty infusion solutions that improve quality of life for patients around the world. The FREEDOM Syringe Infusion System currently includes the FREEDOM60[®] and FreedomEdge[®] Syringe Infusion Drivers, Precision Flow Rate Tubing[™] and HlgH-Flo Subcutaneous Safety Needle Sets[™]. These devices are used for infusions administered in the home and alternate care settings. For more information, please visit www.korumedical.com.

Forward-looking Statements

This press release contains forward-looking statements that involve risks and uncertainties. Forward-looking statements can be identified by words such as "will," "expects," "likely," "look forward," "planned," "potential," and "believe." Actual results may differ materially from the results predicted and reported results should not be considered as an indication of future performance. The potential risks and uncertainties that could cause actual results to differ from the results predicted include, among others, such as uncertainties associated with COVID-19, future operating results, Food and Drug Administration regulations, introduction of competitive products, acceptance of and demand for new and existing products, ability to penetrate new markets, success in enforcing and obtaining patents, reimbursement related risks, government regulation of the home health care industry, success of the research and development effort, expanding the market of FREEDOM60[®] demand in the SCIg market, availability of sufficient capital if or when needed, dependence on key personnel, and the impact of recent accounting pronouncements; and those risks and uncertainties included under the captions "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2019, and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2020, which are on file with the SEC and are available on our website at www.korumedical.com/investors and on the SEC website at www.sec.gov. All information provided in this release and in the attachments is as of November 3, 2020. Undue reliance should not be placed on the forward-looking statements in this press release, which are based on information available to us on the date hereof. We undertake no duty to update this information unless required by law.
