Cummins Reports Strong Second Quarter Profits

- **Continues to deliver strong margins despite challenging economic environment**
- **Expects full-year revenues of \$18 billion, EBIT of 14.25 to 14.75 percent**

COLUMBUS, Ind.--(BUSINESS WIRE)-- Cummins Inc. (NYSE: CMI) today reported strong profits for the second quarter of 2012.

Second quarter revenue of \$4.45 billion decreased 4 percent from the same quarter in 2011. Excluding the impact of divestitures and currency movements, revenues were flat year over year. Growth in North America offset weakness in international markets, particularly China and Brazil.

Earnings before interest and taxes (EBIT) was \$669 million or 15.0 percent of sales. Excluding gains from divestitures, EBIT was \$663 million or 14.9 percent of sales compared to \$707 million or 15.2 percent of sales in the second quarter of 2011.

Net income attributable to Cummins in the second quarter of 2012 was \$469 million (\$2.47 per diluted share) compared to \$505 million in the same period a year ago (\$2.60 per diluted share). Excluding gains from divestitures, the Company reported earnings of \$2.45 per share compared to \$2.41 in the second quarter of 2011.

"The Company continued to deliver strong profits despite the weakening global economic conditions," said Tom Linebarger, Chairman and Chief Executive Officer. "Second quarter gross margins were at record levels as we continue to drive improvements in productivity and quality. Looking forward, as the global economy improves, our growth opportunities remain strong."

Based on the current forecast, Cummins expects full year revenues to be \$18 billion, with EBIT in the range of 14.25 to 14.75 percent of sales.

NOTE 2. INCOME TAXES

Our effective tax rate for the year is expected to approximate 26 percent, absent any discrete period activity. Our tax rate is generally less than the 35 percent U.S. income tax rate primarily due to lower tax rates on foreign income. The tax rates for the three and six month periods ended July 1, 2012, were 25.1 percent and 26.0 percent, respectively.

The tax rates for the three and six month periods ended June 26, 2011, were 29.5 percent and 29.8 percent, respectively, and included a discrete tax charge of \$4 million related to the enactment of state law changes in Indiana. The decrease in the 2012 effective tax rates versus the comparable periods in 2011 is due primarily to our assertion that income earned after 2011 by our China operations is permanently reinvested, as well as certain tax planning strategies implemented in our U.K. subsidiaries.

Net income and diluted earnings per share (EPS) attributable to Cummins Inc. excluding special items

We believe this is a useful measure of our operating performance for the periods presented as it illustrates our operating performance without regard to special items including the gains related to the sale of certain assets and liabilities. This measure is not in accordance with, or an alternative for, accounting principles generally accepted in the United States of America (GAAP) and may not be consistent with measures used by other companies. It should be considered supplemental data.
