Microchip Technology Announces Completion of Microsemi Acquisition

CHANDLER, Ariz., May 29, 2018 (GLOBE NEWSWIRE) -- Microchip Technology Incorporated (NASDAQ:MCHP), a leading provider of microcontroller, mixed-signal, analog and flash-IP solutions, today announced that Microchip has completed its previously announced acquisition of Microsemi Corporation. The shareholders of Microsemi overwhelmingly approved the merger with 99.5% of the Microsemi shares that voted being in favor of the merger. As a result of the completion of the transaction, trading in Microsemi common stock on the NASDAQ Stock Market will cease today.

"We are very pleased to have completed our acquisition of Microsemi," said Steve Sanghi, CEO. "I welcome the Microsemi employees into the Microchip family and look forward to working together to realize the benefits of a combined team pursuing a unified strategy. The Microsemi acquisition will significantly enhance our product portfolio, end-market diversification, operational capabilities and customer scale."

Under the terms of the merger agreement, Microsemi shareholders received \$68.78 per share in cash for each share of Microsemi common stock.

The transaction is expected to be immediately accretive to Microchip's non-GAAP earnings per share. Based on currently available information, Microchip anticipates achieving an estimated \$300 million in synergies in the third year after close of transaction. Microchip financed the transaction with cash from the combined company balance sheets, borrowings from Microchip's existing line of credit, \$3 billion from a new term loan and \$2 billion from newly issued high-grade secured bonds. Microsemi's previously outstanding debt was retired in conjunction with the closing of the transaction.
