

GLADSTONE CAPITAL

**Investor Presentation
for the Fiscal Quarter Ended
December 31, 2021**

Legal Disclaimer

Forward-Looking Statements: This presentation may include “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may include comments with respect to our objectives and strategies, and the results of our operations and our business.

These forward-looking statements inherently involve numerous risks, assumptions, and uncertainties, both general and specific. The risk exists that these statements may not be fulfilled. Although these statements are based on information available to us as of the date of this presentation, which we believe is reasonable, we caution readers of this presentation not to place undue reliance on these forward-looking statements as a number of known and unknown factors could cause future results to differ materially from these statements, including those factors listed under the caption “Risk Factors” in our Form 10-K and Form 10-Q filings, our registration statement, and other filings we may make with the Securities and Exchange Commission, all of which can be found on our web site at www.GladstoneCapital.com or the SEC’s web site, www.SEC.gov.

Forward-looking statements may be influenced in particular by factors such as the overall impact of the COVID-19 pandemic and other health emergencies, fluctuations in interest rates and stock indices, the effects of competition in the areas in which we operate, and changes in economic, political, regulatory and technological conditions. We caution that the foregoing list is not exhaustive. When considering forward-looking statements when making decisions, investors should carefully consider the aforementioned factors as well as other uncertainties and events.

Past or Present Performance Disclaimer: This presentation includes information regarding our past or present performance. Please note, past or present performance is not a guarantee of future performance or future results. We undertake no obligation to update the information contained herein to reflect subsequently occurring events or circumstances, except as required by applicable securities laws and regulations.

**Amounts in tables and charts in thousands, except for share and per share amounts and as otherwise stated.

Gladstone Capital Overview

Background:

- Founded in 2001, Gladstone Capital was one of the first business development companies (BDC) focused on making loans to lower middle market U.S. businesses (\$3-15MM of EBITDA) and today the investment team remains dedicated to the BDC's activities and performance and thus aligned with the BDC's investors
- Gladstone Capital is funded through publicly traded common stock (*Nasdaq: GLAD*) and is leveraged via various senior unsecured note issues and a bank revolving credit facility
- Managed by Gladstone Management Corporation, an SEC registered investment adviser that manages in excess of \$3.6 billion in assets across four publicly traded yield-oriented funds with significant insider equity holdings and a history of shareholder friendly actions to support fund distributions

Investment Strategy:

- Target current yield investments in growth-oriented companies with proven cashflows, where capital flexibility is highly valued to support attractive investment yields
- Growth equity valuations support proportionately greater equity contributions and reduce the investment risk profile, while revenue growth also provides a path to organic deleveraging and multiple repayment options
- Majority of investments are backed by private equity sponsors, which provide institutional governance, strategic sector insight, experience managing leveraged balance sheets and investment capacity to support business
- Leverage seasoned origination team to source, structure and pro-actively manage investments to mitigate losses

Investment Profile (as of December 31, 2021):

- \$577 million portfolio at fair value diversified across 47 companies and 14 different industries
- Conservative asset mix with 87% of investments in secured loans, 69% in lower risk 1st lien loans and weighted average EBITDA leverage across core proprietary loan portfolio of 3.8x
- Attractive weighted average portfolio yield of 10.3%, which is modestly leveraged (0.81:1 debt/equity) to support GLAD's net investment income (NII) yield on net asset value which averaged 9.6% for 2021

Why Invest in a BDC?

BDCs are regulated by the SEC, which mandates asset diversity, investor transparency via quarterly SEC filings including fair value adjustments of all assets and limits financial leverage to a maximum of 2:1 debt to equity leverage.

BDCs typically operate as regulated investment companies for tax purposes and pay no corporate income taxes, provided they distribute at least 90% of taxable income and all earnings and gains are passed through to investors.

Investment Profile

- **Competitive returns** – Current yields typically exceed other yield-oriented investment alternatives
- **Limited interest rate risk** – Distributions backed by floating rate loans supporting increased distributions as interest rates rise
- **Credit protection** – Distributions generated by a diversified portfolio of secured loans
- **Investment liquidity** – Established public equity market for common stock
- **Experienced credit managers** – Experience and capital base structured to manage loan portfolio through various business cycles to minimize credit losses

Gladstone Capital Strategy and Risk Management

Investment Strategy:

- Originate secured debt investments in established lower middle market companies with sustainable margins/cash flows and favorable growth characteristics, which can support a leveraged capital structure
- Target companies with operating cash flow (EBITDA) of \$3-15 million and investments of \$7-30 million
- Maintain industry and borrower diversity across added value businesses with revenue visibility or competitive barriers including specialty manufacturing, industrial or business services, or healthcare services, while avoiding financial services, early stage or high-tech companies, commodity or cyclical businesses

Deal Sourcing:

- Origination team provides regional coverage of middle market PE firms, investment banks and other deal sources
- Leverage seasoned investment team and dedicated lower middle market focus to deliver an elevated level of expertise to win investor-oriented financing solutions and actively manage ongoing investment portfolio risks
- Highly selective screening process where under 5% of deals reviewed ultimately close and the bulk of investments are backed by private equity (~70% of the portfolio at 12/31/21)

Due Diligence:

- Thorough multi-disciplinary “equity like” underwriting approach – blending internal industry experience, onsite visits and management assessments, supplemented with third party financial reviews, industry assessments, management background checks, and legal and insurance investigations, etc.

Risk Management:

- Gladstone Capital requires board level participation in portfolio companies to monitor operating performance and outlook to proactively manage risk profile
- Ongoing senior management reviews, quarterly third party expert investment valuations, and investments are subject to quarterly oversight by Gladstone Capital’s audit committee and independent board members

Attractive Lower Middle Market Dynamics

Why we target lower middle market (“LMM”) companies

- Greater industry diversity and more consistent flow of growth-oriented investment opportunities across the vast array of U.S. based businesses
- Lower middle market companies typically sell for lower cash flow multiples, which translates into reduced financial leverage and better asset collateral coverage
- Smaller investment size attracts less competition from larger funds or commercial banks which supports more attractive investment returns at lower relative leverage levels
- More receptive to equity co-investments, providing an opportunity to selectively participate in anticipated growth and equity appreciation

Trends Enhancing Opportunity for Non-Bank Lenders

- A PE Sponsor’s ability to scale LMM acquisitions and achieve their targeted equity returns often hinge on the support of a financing solution tailored to the business or deal framework which require a more experienced and responsive lender able to flex to the circumstances even if at a slightly higher financing cost
- The ability to provide simplified and expedient “one-stop” financing solutions serves to expedite closing and reduce execution risk
- Regulations have curtailed commercial bank capacity to hold leveraged investments and scale diminishes their flexibility to respond to changing business conditions or LMM opportunities
- Most private debt funds focused on senior loans to larger borrowers (>\$10 million EBITDA) with higher minimum investment thresholds to achieve costs efficiencies and meet deployment objectives of their institutional investor base

**LMM investment strategy can provide attractive investment upside
and is well suited for non-bank investment flexibility**

Gladstone Capital 12/31/2021 Quarter Summary

Originations/Portfolio Activity:

- Invested \$110.8 million during the quarter, which included six new proprietary investments of which 65% were first lien loans which rose to 72.4% of the portfolio at cost.
- Received \$96.8 million in repayments and net proceeds, primarily from the exits of five portfolio companies including a \$13.4 million net realized gain in conjunction with our exit of Lignetics, Inc.

Portfolio Yield / Net Investment Income (NII):

- The weighted average yield on the portfolio was unchanged at 10.3%; however interest income declined by \$0.4 million from the prior quarter as the average interest-bearing investment portfolio increase of 1.4% did not offset \$0.6 million of past due interest received during the prior quarter.
- Other income increased by \$2.2 million with fees generated from the portfolio exits which lifted total investment income for the quarter by 13% to \$16.2 million.
- Total expenses decreased by \$0.5 million, quarter over quarter, primarily due to a \$1.3 million decrease in the net base management fee due to the Adviser as a result of higher fee credits associated with the elevated level of originations, partially offset by a \$0.6 million increase in the net incentive fee due to the Adviser.
- Net investment income for the quarter ended December 31, 2021 was \$9.2 million, an increase of 33.9%, as compared to the prior quarter, or \$0.27 per share and covered the dividends paid of \$0.195 by 137%.

Portfolio Performance and Valuation:

- Net Assets from Operations came in at \$12.1 million for the quarter, or \$0.35 per share, driven by the increase in net investment income and \$2.9 million in net realized and unrealized gains.
- Overall leverage performance improved as the core portfolio leverage remained unchanged at 3.8x with no non-performing assets as of 12/31/21.

Gladstone Capital Origination Activity

- Originations were able to outpace the material increase in repayments last quarter to grow the portfolio.
- Weighted average yield remained unchanged over the quarter despite the portfolio turnover.

Gladstone Capital Quarterly Net Investment

	12/31/2019	3/31/2020	6/30/2020	9/30/2020	12/31/2020	3/31/2021	6/30/2021	9/30/2021	12/31/2021

Number of Portfolio Company Exits	4	4	2	1	3	3	3	1	5
Total Portfolio Companies	51	48	48	48	47	47	47	46	47

Gladstone Capital Portfolio Trends

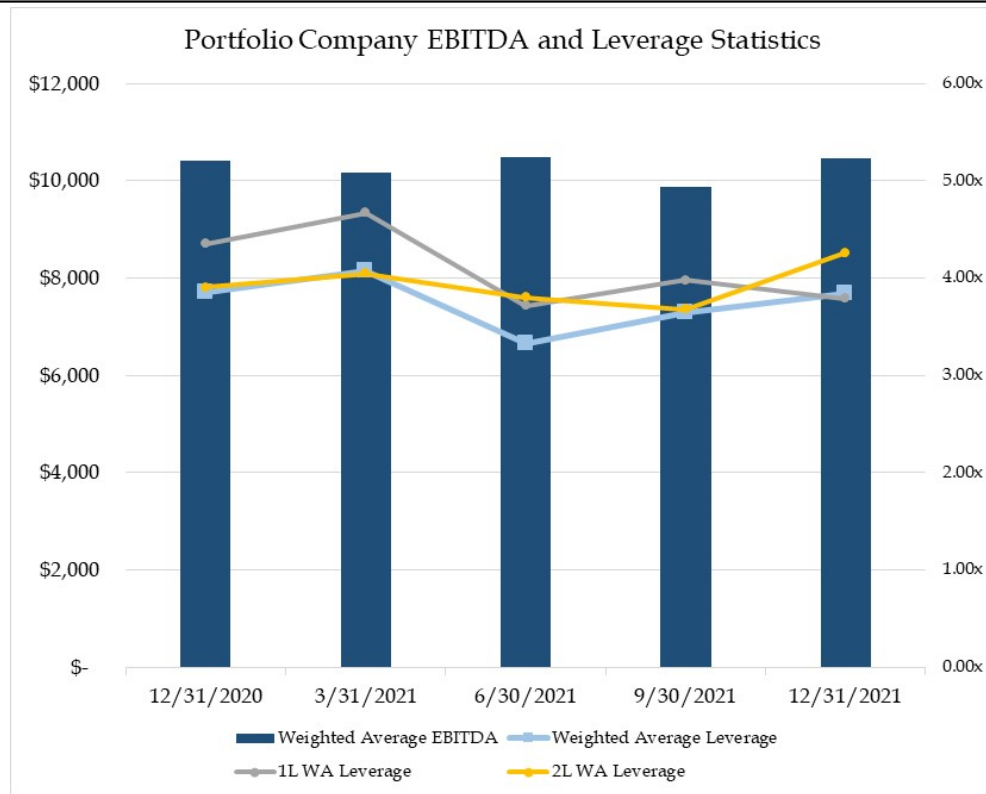

- Net originations of \$62 million over the last four quarters were driven by PE sponsor demand for flexible first lien/unitranche financing which combined with the repayment of legacy 2nd lien assets lifted 1st lien assets to 69% of the portfolio.
- Equity investments contracted with the realized gains in the December 2021 quarter; however four of the six new originations last quarter also included equity co-investments.
- This quarter's portfolio appreciation brings the cumulative NAV appreciation over the past two years (since 12/31/19) to \$39.8 million, or a 17% increase in NAV.

	9/30/20	12/31/20	3/31/21	6/30/21	9/30/21	12/31/21
First Lien Debt	47.4%	48.6%	55.5%	62.7%	60.5%	68.7%
Second Lien Debt	43.7%	42.9%	32.5%	25.1%	24.4%	18.4%
Equity / Other	8.9%	8.4%	12.0%	12.3%	15.1%	12.9%

Portfolio Metrics

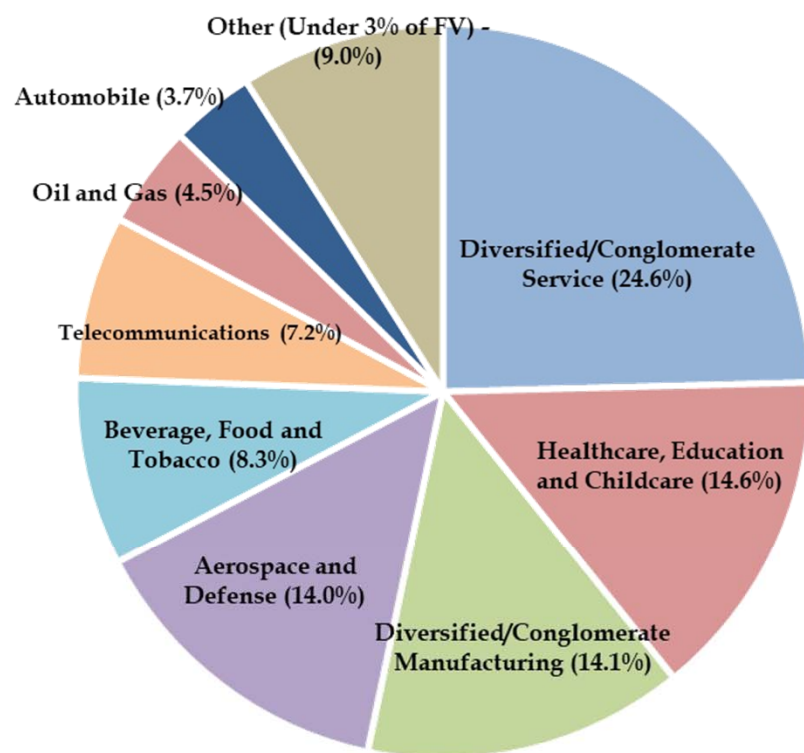

GLAD's core loan portfolio* has an average EBITDA of \$10.5 million and consists of 88% in first lien and 12% in second lien loans and an average leverage multiple of 3.8x EBITDA

*For the purposes of this presentation, the core loan portfolio excludes certain investments: (i) Broadly Syndicated Loans; (ii) co-investments with GAIN; (iii) residual investments under \$4 million; (iv) equity only investments; (v) one recently negative EBITDA business, (vi) two oil and gas investments that experienced outsized COVID-19 impacts; (vii) one investment with outsized TTM EBITDA (>10x average) which distorts weighted average EBITDA; and (viii) the restructured LWO Acquisitions Company LLC. Additionally, investment EBITDA and Leverage are weighted based on the size of the principal outstanding.

Industry and Deal Sources Are Diversified

***Debt includes Line of Credit and Long Term Debt

Note: The financial information above is not comprehensive and is without notes, so readers should obtain and carefully review GLAD's Forms 10-K and 10-Q for the corresponding reporting periods as filed with the SEC.

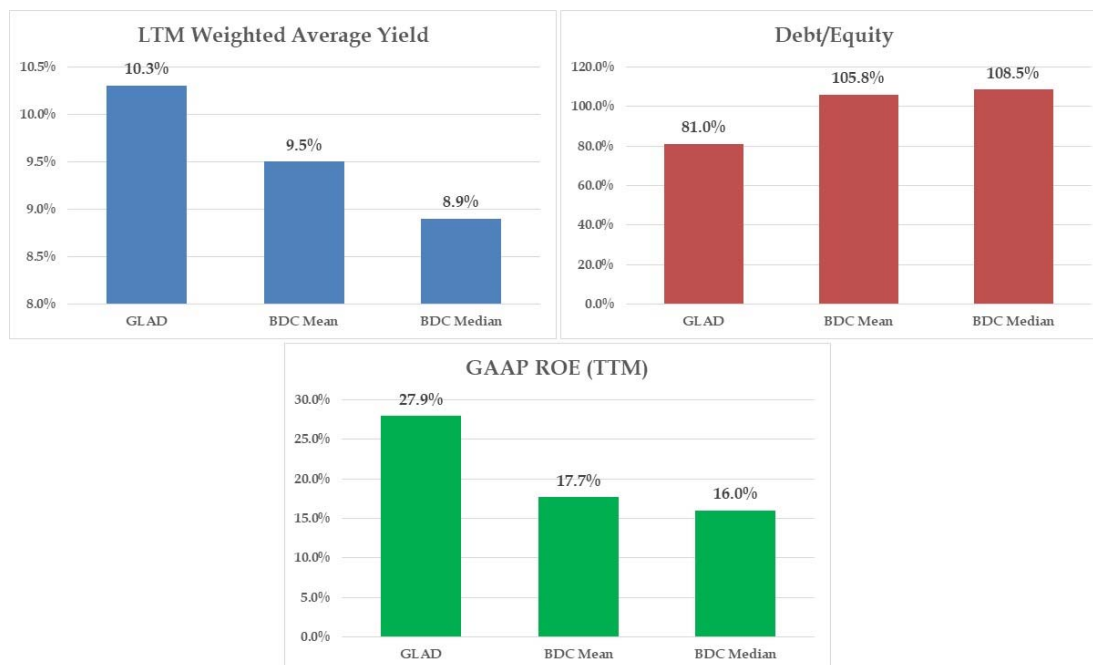

Gladstone Capital 12/31/2021 Quarter Summary

Capital Base and Liquidity

- Liabilities rose to \$263 million as of 12/31/2021, consisting of \$150 million of 5.125% senior notes due 2026 and \$50.0 million of 3.75% senior notes due 2027 which were used to refund the \$38.8 million of senior notes due in 2024.
- Advances under our floating rate bank line of credit increased to \$53.9 million.
- Total leverage increased slightly during the quarter to 81% of Net Assets which was in line with investment growth.
- As of 12/31/2021, we had in excess of \$100 million of availability on our bank line of credit to grow our investment portfolio and capitalize on our conservative leverage position to increase net interest income.

ROE Performance

- Despite the elevated level of portfolio turnover and asset growth, shift to 1st lien assets and modest financial leverage, the portfolio generated an average ROE yield (NII) of 9.6% for 2021.
- This quarter's portfolio appreciation brings the cumulative NAV appreciation over 2021 to \$55.1 million and lifts the GAAP ROE for the period to 27.9% significantly outpacing the average BDC returns. ⁽¹⁾
