Total expenses decreased by 1.8% quarter over quarter, primarily due to a \$0.2 million increase in fee credits granted by our external investment adviser (the "Adviser") associated with the up-front fees received for new deals.

**Comments from Gladstone Capital's President, Bob Marcotte:** "We are pleased to report that our portfolio has continued to perform well and we have fully recouped the Covid related depreciation of last year. Last quarter was very active for originations and we managed to outpace repayments to achieve net investment growth and a nice increase in fee income. We currently expect much of the same for the balance of 2021 and we believe we remain well positioned to capitalize on our conservative leverage position to grow our lower middle market portfolio and earnings."
