Avenue Therapeutics Reports Third Quarter 2017 Financial Results and Recent Corporate Highlights

NEW YORK, Nov. 09, 2017 (GLOBE NEWSWIRE) -- Avenue Therapeutics, Inc. (NASDAQ:ATXI) ("Avenue"), a Fortress Biotech (NASDAQ:FBIO) Company, today announced financial results and recent corporate highlights for the third quarter ended September 30, 2017.

"We are excited to have dosed the first patient with IV Tramadol in our Phase 3 bunionectomy trial this quarter, and we look forward to reporting topline data from the study in the second quarter of 2018," said Lucy Lu, MD, Avenue's President and Chief Executive Officer. "If successful in our clinical trials and approved by the FDA, IV Tramadol would be the only intravenous Schedule IV opioid in the U.S. IV Tramadol fits into and facilitates the trend to minimize usage of conventional narcotics in the post-surgical setting."

Financial Results:

- As of September 30, 2017, Avenue's cash and short-term investments (certificates of deposit) totaled \$26.1 million compared to \$0.2 million at December 31, 2016, an increase of \$25.9 million year-to-date.
- Research and development expenses were \$2.0 million for the third quarter of 2017, compared to \$0.2 million for the third quarter of 2016.
- General and administrative expenses were \$0.8 million for the third quarter of 2017, compared to \$0.2 million for the third quarter of 2016.
- Net loss attributable to common stockholders was \$2.9 million, or \$0.30 per share, for the third quarter of 2017. This compares to a net loss attributable to common stockholders of \$0.5 million, or \$0.19 per share, for the third quarter of 2016.

Recent Corporate Highlights:

- In September 2017, Avenue announced that the first patient has been dosed in the pivotal Phase 3 clinical trial of intravenous (IV) tramadol for the management of moderate to moderately severe pain in patients following bunionectomy surgery.
- In August 2017, Avenue appointed Joseph Vazzano as Vice President of Finance and Corporate Controller (principal financial and accounting officer).

About Avenue Therapeutics

Avenue Therapeutics, Inc. ("Avenue"), a Fortress Biotech Company, is a specialty pharmaceutical company focused on the development and commercialization of intravenous (IV) tramadol for the management of moderate to moderately severe postoperative pain. IV Tramadol may fill a gap in the acute pain market between IV acetaminophen/NSAIDs and IV conventional narcotics. Avenue is currently evaluating IV Tramadol in a pivotal Phase 3 trial for the management of postoperative pain following bunionectomy surgery. Avenue is headquartered in New York City. For more information, visit www.avenuetx.com.

About Fortress Biotech

Fortress Biotech, Inc. ("Fortress") is a biopharmaceutical company dedicated to acquiring, developing and commercializing novel pharmaceutical and biotechnology products. Fortress develops and commercializes products both within Fortress and through certain of its subsidiary companies, also known as Fortress Companies. In addition to its internal development programs, Fortress leverages its biopharmaceutical business expertise and drug development capabilities and provides funding and management services to help the Fortress Companies achieve their goals. Fortress and the Fortress Companies may seek licensings, acquisitions, partnerships, joint ventures and/or public and private financings to accelerate and provide additional funding to support their research and development programs. For more information, visit www.fortressbiotech.com.

Forward-Looking Statements

This press release may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, each as amended. Such statements include, but are not limited to, any statements relating to our growth strategy and product development programs and any other statements that are not historical facts. Forward-looking statements are based on management's current expectations and are subject to risks and uncertainties that could negatively affect our business, operating results, financial condition and stock value. Factors that could cause actual results to differ materially from those currently anticipated include: risks relating to our growth strategy; risks relating to the results of research and development activities; risks relating to the timing of starting and completing clinical trials; our ability to obtain, perform under and maintain financing and strategic agreements and relationships; uncertainties relating to preclinical and clinical testing; our dependence on third-party suppliers; our ability to attract, integrate and retain key personnel; the early stage of products under development; our need for substantial additional funds; government regulation; patent and intellectual property matters; competition; as well as other risks described in our SEC filings. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations or any changes in events, conditions or circumstances on which any such statement is based, except as required by law.
