Cellecstar Biosciences to Present at the Guggenheim Healthcare Talks Radiopharmaceuticals Day

FLORHAM PARK, N.J., May 08, 2024 (GLOBE NEWSWIRE) -- Cellecstar Biosciences, Inc. (NASDAQ: CLRB), a late-stage clinical biopharmaceutical company focused on the discovery, development, and commercialization of drugs for the treatment of cancer, today announced that Jarrod Longcor, chief operating officer of Cellecstar, will present an overview of the company in a fireside chat at the upcoming Guggenheim Healthcare Talks Radiopharmaceuticals Day being held on May 13, 2024 in New York City. Details of the fireside chat are as follows:

Date: Monday, May 13, 2024
Time: 1:00 pm Eastern Time
Webcast: [Click HERE](#)

A replay of the presentation will be available on the [Events](#) section of the company's [investor relations](#) website.

About Cellecstar Biosciences, Inc.

Cellecstar Biosciences is a late-stage clinical biopharmaceutical company focused on the discovery and development of proprietary drugs for the treatment of cancer, independently and through research and development collaborations. The company's core objective is to leverage its proprietary Phospholipid Drug Conjugate™ (PDC) delivery platform to develop the next-generation of cancer cell-targeting treatments, delivering improved efficacy and better safety as a result of fewer off-target effects.

The company's product pipeline includes lead asset iopofosine I 131, a small-molecule PDC designed to provide targeted delivery of iodine-131 (radioisotope), proprietary preclinical PDC chemotherapeutic programs and multiple partnered PDC assets.
